PRESS AND TRIBUNE.

MONDAY MORNING, SEPTEMBER 27, 1858.

Chicago Relief Society--Mr. Larned's Letter.

We print this morning a letter from E. C. Larned, Esq., in which the affairs of the relief Society are discussed with that gentleman's usual vigor and at considerable length. Let us invite the attention of our readers who are interested--and who that pays taxes is not interested?--in the subject matter.

It is a fault of Western society that it is imitative, not original. The exploded and defunct humbugs of politics and social economy which obtain a footing in the East are sure to make progress in the West. Whatever comes to us with a New York or New England indorsement is accepted without inquiry; and at this day our independence and progress--hence, our true happiness and real interests--are obstructed and impeded by schemes--the product of Eastern brains--which ought never to have been put in execution and which need only be tried to be scouted and condemned. We are a young, vigorous, healthful, and might if we would be a self-reliant people; but the faculty of imitation is larger than that of invention; and we go on from year to year copying the blunders and errors of those who have preceded us. In the tremendous problem, How shall we treat the Poor? we have been content to be imitators still; and at last, after all the philanthropic quackery which has been borrowed from New York and New England, we have brought up with a round turn, the problem still unsolved.

But in the meantime something has been gained. Alms-givers have learned that their bounty has mainly gone heretofore for the encouragement of impostors, shiftlessness and mendicity; and if we mistake not, they are more than willing to inaugurate a reform that will compel the "Dimmecrats" who live in grog-shops all Summer, vote the pro-slavery ticket in the Spring and Fall, and beg all winter, to work or starve. It cannot come too soon. Heaven knows that there are enough objects who deserve the charitable efforts of their more favored fellows, to engross all that the charitable will give. Whatever system will separate them from the dirty and drunken crew who cry for money when they most need the lash, look after their wants and sorrows, encourage their willingness to work, and strengthen their self-respect, should be fostered. But this loose, slip-shod method which, dignified by Eastern approval, has done so much to reward idleness and brazen-faced impudence--which has practically furnished more whisky for the drunken than bread for the hungry--cannot be dispensed with too soon. We claim to be as generous and charitable as the generality of mankind; but there is an end of all endurance; and we are almost inclined to say that the time has come in which the Catholic Church and the Democratic Party should be commanded to take care of their own paupers. This community--we say words that are not near as harsh as true--is ridden near to death by the unworthy members of the one and the lazzaroni of the other. To them are we indebted for a majority of the tenants of our prisons, for nine-tenths of the disturbers of the public peace, and for a like proportion of the occupants of the gallows. It is time that the correction was applied--that they as well as their betters should know that toil and economy, temperance and frugality are the only safeguards against cold and hunger. Their sick and their little ones are exempted by common humanity from the visitations which nature has ordained for the lazy and profligate. Let us care for them; but for the others--work and save, or go hungry and cold! is a sufficient command. In this country of abundance, where there is room, work and food for all, and where the government bears equally on all, no man or woman, in common health and of ordinary mental vigor, should ask alms. In nine cases out of ten where men or women do so, they are either impostors or profligates, wholly undeserving. For the benefit of such--we say it in all kindness to the charitable who have been engaged therein--relief societies, on the Eastern plan, were invented and have been conducted. Give us something better!

The Prospect.

Our letters from the centre of the State contain nothing but positive assurances of Lincoln's success there, where he is best known. We have it from those who cannot be mistaken, that nine-tenths of the Old Line Whigs in the dozen or more of the central counties claimed by Douglas and his friends, have come out cordially and manfully in favor of Lincoln and the conservative principles which he so nobly upholds. They know the man, his candor, his honesty and his patriotism. They resent, as they should, the slanders that have followed him since he took the field, and our readers may depend upon it, they will make their resentments felt and understood at the polls. There can be no longer any doubt of Mr. Lincoln's triumph.

A Small Matter.

It is a matter of so little practical importance that we have neglected until to-day to announce that Thos. Dyer, Esq., of this city, has been nominated for Congress by the Douglas men of this district. Mr. Dyer stands as little chance of being elected as of being struck by lightning, or of being any use to himself or his constituents in the event of success. But in accordance with the programme, somebody must be put up to be knocked down; and as no one else seemed to have coveted that honor, Mr. Dyer was selected for the sacrifice. We wish him a jolly canvass and as many votes as he deserves. When and where does he propose to meet Farnsworth on the stump?

A Favorable Notice.

We have received two numbers of a paper published at Ottawa, entitled the *Little Giant*, with a request in pencil, on the margin, to give it a favorable notice. We find it to be devoted to the task of preventing Democrats from marrying negroes, and we wish it God speed in the enterprise. After it has worked out the needed reform in Ottawa we will suggest other localities where its energies will find full swing. We are pleased to observe that the *Little Giant* sticks to its text and does not meddle with politics.

Canadian Palace of Industry.

Our Canadian neighbors are about to inaugurate a grand Provincial Exhibition in the Crystal Palace erected at Toronto. The building measures 256 feet in length, 144 in width, and with the galleries gives a floor space under cover of 38,000 superficial feet. After all room necessary for the exhibition of articles is used, there will be sufficient accommodations for upwards of 8,000 visitors. The walls are constructed in a great measure of obscured glass, similar to that used in the Dublin Exhibition Palace. It is light, spacious and airy, but plainly finished. The exterior shows more pains at decoration, and the British standard waves over the whole. The Palace of Industry is located on a beautiful site of twenty acres, being the Garrison Reserve. It is to be formally inaugurated on Wednesday by the Governor General, Lord Napier, and other noblemen and gentlemen, assisted by the Choral Society of 250 performing members.

Bank Defaulter.

Boston, Sept. 24th.--It is rumored that R. M. Woodsworth, who has lately resigned the office of Cashier of the Brighton Bank, is a defaulter to that institution to the amount of thirty thousand dollars. The bank is, however, amply secured from loss.

Departure of a Steamer.

Death of an Eminent Divine.

Charleston, Sept. 24.--Reuben Post, an aged and esteemed Presbyterian minister, died to-day of yellow fever.

The Douglas Demonstration at Kankakee.

We have received, too late for insertion in this morning's issue, an account of the Douglas demonstration at Kankakee on Saturday. The whole thing was a failure--speech, enthusiasm and audience, numbering about twelve to fifteen hundred, two-thirds at least of which were Republicans when they went there, and the stiffest kind of Republicans when they came away.

☞ Hon. Owen Lovejoy will address the Republicans of Kankakee on Thursday next.

Another fact for Advertisers.

The circulation of the Weekly Press and Tribune has gone up to *Twenty Thousand*, and the cry is "still they come." No paper in the whole West approaches this circulation.

First Grand Republican Rally.

A Republican mass meeting will be held on Tuesday evening, to ratify the nominations of the County Convention. The hour and place will be designated in the Tuesday morning papers. The meeting will be addressed by Hon. Carl Schurz of Wisconsin and by the candidates. Let there be a rousing turn-out.

Eighth Ward Republicans Attend!--There will be a meeting of the Eighth Ward Republican Club at Mr. A. Lehder's saloon, No. 207 North Clark street, this (Monday) evening, at half-past seven o'clock.

Medals and Awards.--It is gratifying to know that while in our numerous State, County, and Society Fairs we have very numerous productions of Illinois industry and skill that receive medals of gold, silver and bronze, it is not necessary for the purpose of these latter to go without the boundaries of our own State, and that in Chicago many are made annually. Some of the medals made by F. N. Dubois, No. 246 South Clinton street, we have never seen surpassed for delicacy and beauty of finish.

D. B. Cooke & Co., 111 Lake Street.--The many of our public who have already found our friends, D. B. Cooke & Co., "at home" in their beautiful new store, No. 111 Lake street, will not need other reminder than the reminiscence of their visit, of the claims of this leading book-selling and publishing house. Though not old in years as in older cities men speak of age, this firm have a history in Chicago which runs through the most marked period of the growth of our trade in general and the book trade in particular.

From their old store, where we first remember them, just west of Clark street, half a block from their present stand, they won a name and fame, and a success which not only was to their credit and honor individually, but deserved to be cited as to the credit of our city.

From thence they transferred their stock to the superb establishment nearly opposite where they now are located, and there they got new fame, and their magnificent salesroom in the five-story marble block was one of the lions of our city, which every stranger must visit. There the house extended their business, and added to the list of law books in particular, volumes entirely worthy of the excellent style of their issue, and received with immediate welcome.

It has become history, and over the page Memory weeps, how one morning's sun arose on the blackness of ashes and desolation, on ruined walls and smouldering embers and rich merchandise, and rare art gems, and the works of the greatest of human minds and pens, all wasted and ravaged by the destroyer.

Our friends, undaunted by misfortune, well nigh reproduced the attractions of their former store, in the Portland Block on Dearborn street, and carried on their publishing business, and in the book trade paid especial attention to classic and library editions of standard works. During the year they have added the splendid achievement of the "Revised Statutes of Illinois," one any veteran publishing house might envy.

They now return to Lake street to re-embark entirely as before in the general book trade, and our reading public who remember the indefatigable enterprise of the firm in securing the freshest and latest of all book issues, will welcome them to their place as popular and ever ready caterers.

Their new store is the remodelled "No. 111," known of yore and long associated with books and book-hunters. We wish them success, and the wish is a prophecy, a safe prophecy, where the end is known from the beginning, the future from the past.

"The Northwest."--This is the title of the opening article of the first number of the *Northwestern Quarterly*, and the writer has exhibited a rare acquaintance with the history of that portion of the territory of which he treats. The article opens thus:

> Five thousand eight hundred and sixty-one years ago, a Continent was created for some high and holy purpose. For a reason, known to its Creator alone, the civilized world remained in ignorance of its existence, its utility, its grandeur, and its beauties for five thousand four hundred and ninety-five years. On Friday, October 12, 1492, its *outposts* were discovered by Columbus; and in the spring of the following year, the news of this great event burst upon the astounded ears of Europe. *Eureka!* It was found at last. What? A new ground--a new workshop--a new harvest-field--a new chase--a new mine--a new fishery, a new counting room--new school house--a new theatre--a new nursery--a new battle field--a new home--a new world--a new everything--to minister to the wants and hopes of mankind. The gold hunter found his El Dorado--commerce, a new field for its ambition--agriculture, a virgin soil to till--poets, food for the hungry imagination--the statesman, an opportunity for distinction--armies, a new world to conquer--navies, a broader sea to sail over, and win their victories upon--the antiquarian, the geologist, the geographer, the statistician, the historian, the botanist, indeed, the philosopher of every class and grade, new facts to base their theories upon. The Nimrods, the Waltons, and the Audubons of the age, found in the prairies, the woodlands, and waters of the new continent the excitements by which they lived and grew. Religion found its asylum--education, its native university, and liberty its home. In the great heart of the northern portion of that continent--its life's core--nestles the "Northwest." Unknown to fame, but entitled to climb its highest steps. With a history, but unwritten and unread. With a poetry in its every part--in its bowels, its head, its feet, its vesture, in every member and artery of its huge body--but its lyre hangs in its secret chamber unstrung--biding its time, until God in his providence shall select its bard and musician, to write and sing of its mountains and their snow-capped summits--of its "inland-seas" and the treasures buried beneath their waters; of its great river--that "father" of waters, who laves his majestic head in the refreshing fountain of Itasca, bathes his feet in the Gulf of Mexico, washes his strong right arm in the perpetual snows of the Rocky Mountains, and his left in those of the Alleghanies--of its vast and wide-spread prairies, with their green summer carpets, inlaid with flowers, which are taken up in the autumn of every year by God himself and hung up in the attic of the skies, and then replaced with one of unspotted white, the emblem of his purity and love for man.

His description of the first civil Court held in the Northwest is rich:

> The first civil court ever held in the Northwest was that of the Court of Common Pleas of Washington county, at Marietta, September 2, 1788, by Rufus Putnam and Benjamin Tupper, presiding justices. This court was opened with great pomp. A procession was formed, the the Sheriff, with a drawn sword, in advance, followed by the citizens, officers of the garrison at Fort Harmar, the members of the bar, the judges of the Supreme Court, the Governor and a clergyman, with the Judges of the Common Pleas, in the order in which they are named. Arriving at the hall of the *Campus Martius*, the whole of the procession was counter-marched into it, and the Judges Putnam and Tupper took their seats upon the bench; the audience was seated, and, after a divine benediction was invoked by the Rev. Dr. Cutter, the High Sheriff, Ebenezer Sproat, advanced to the door and proclaimed aloud, "O yes, O yes! a court is opened for the administration of even-handed justice to the poor and the rich, to the guilty and the innocent, without respect of persons; none to be punished without a trial by their peers, and in pursuance of the laws and evidence in the case." Besides the crowds of emigrants and settlers, there were present to witness the ceremonies hundreds of Indians, who held their encampment in the vicinity for the purpose of entering into a treaty with the Federal Government. It must be admitted that Sheriff Sproat was more intelligent and imposing in his style of opening the first court, than one of his successors in Illinois, who, when ordered by the court thus, "Mr. Sheriff, open court," proclaimed, "O yes, O yes! court am open," and when afterwards directed to adjourn the court, cried out to the by-standers, "O yes, O yes! court am shut."

The article contains a most succinct history of the Northwest--the Indian tribes--the wars, &c.--with numerous amusing and interesting incidents worked in. Every citizen of the Northwest ought to read it.

City Cemeteries--An Important Question.--The following letter from J. V. C. Smith, M. D., ex-Mayor of the city of Boston, addressed to the Rev. William Barry, Secretary of the Chicago Historical Society, was received and read at the recent meeting of the Historical Society. It was called forth by an application made by that Society to Dr. Smith for documents relating to the burial of the dead in cities.

The subject was deemed by the Society, and very wisely, we think, of sufficient importance to justify the publication of the letter, emanating as it does from a gentleman of extensive information and experience. The facts therein set forth, demand serious and immediate consideration and action; although the location of the Chicago Cemetery, being as it is, upon the shore of the lake, and the sandy character of the soil render it far less objectionable than it would otherwise be:

Boston, Sept. 17, 1858.

Dear Sir:--A few weeks since I was at Chicago, passing a day, returning from Minnesota, and regret not knowing you were a resident, since it is quite difficult to furnish the papers and materials you desire.

No city in America has more need of a very remote place for burying the dead than Chicago. The very level surface of the ground, and the free precolation of the water through it, at some future day will lead to the most disastrous consequences, if human bodies are allowed to accumulate.

I examined with particular care the vast Cemeteries of Constantinople and Cairo in Egypt, in the very midst of a dense population; and it is beyond a doubt the cause of those terrible mortalities, which, every few years, almost desolates those great cities. The decomposition of such vast accumulations of animal matter, in the midst of the people, must poison the atmosphere, and be the source of multitudes of unrecognized causes of death.

Every man who wishes well to Chicago, should exercise all the influence he can bring to bear upon the Legislature and Municipal authorities, to save a city which seems pre-destined to become of the largest and most important in this country, from all those calamities which will assuredly fall upon the future citizens of that great inland commercial centre, at no very remote period, if intermural burials, are not positively interdicted.

With such facilities as the railroads furnish the people, the public Cemetery should be, at least, twenty miles from the city. Those broad avenues which characterize the place in its youth, long before it is a hundred years old, will be studded with lofty dwellings, warehouses and structures of all kinds, far beyond the present boundaries of the city. Bury the dead, then, so far from the living, that the chemical changes which such masses of human bodies are constantly undergoing, as necessarily accumulate in a city of the magnitude of Chicago, may be innocuous, and that the air, the water and soil may not be made unfit or unsafe for the residence of the multitude.

Very truly, I have the honor to remain your obedient servant, J. V. C. Smith.

The "Home."--*Messrs. Editors*.--I went to the "Home for the Friendless" a few days since and there I saw a scene which might make even an angel weep.

A sweet child of four years, as beautiful and fair, mother, as that darling now nursing in your loving arms, and yet so tiny and so pale, it seemed as if scarce two summers could have passed over that little head, such fearful work had hunger and neglect made with that frail, baby-like form. Her mother died, her father went to St. Louis, leaving her with strangers, promising to send funds to provide for her wants. Money came slowly--the child was abused, starved, beaten till its little frame was dark with bruises, then left by the family, who removed to another house, alone in the deserted tenement, to starve and die.

A neighbor found her there, so weak she could scarcely move or articulate, and carried her to the "Home." There she found a kind friend in the Matron, whom we found bending over the bed of the little one, and teaching her with all a mother's tenderness.

Sweet little Bella Hall. You have found a resting place at last; no more hunger, no more beatings, but kind friends and loving hearts around you.

How we wished, as we looked into that nursery and saw all those homeless little ones, children of poverty and want, that those noble-hearted men and women who have so generously responded to the call for funds, would go there and reap a rich reward in seeing the good they have done.

To such generous men as Crawford & Sharp, who, we were told, had given crockery to set a table for seventy-five persons, and a half dozen chamber sets; to ---- ----, who gave a fine cooking stove; to Hollister & Wilkins, who donated parlor carpet, and to all those who gave flour, groceries, wood, coal, money and clothing, to all those I could say, "God's blessing on you," and may others, incited by your good works, "go and do likewise." Dyeing and Scouring.--Gentlemen desirous of consulting both their pockets and comfort, will do well to call on Cook & M'Lain, 98 Dearborn street, and leave their old Clothes to be, by their well known Chemical Dyeing and Cleaning, restored to their original beauty and finish, at a trifling cost, and without injury to the material. Thousands of our citizens are daily reaping the benefit derived from their institution, and by it, making an annual saving in their tailor's bills of at least one-half. We would also recommend our many country friends to try the virtues of their process.

TELEGRAPHIC NEWS.

The Atlantic Telegraph.

To C. W. Field, New York:

Trinity Bay, Sept. 24.--We have received nothing intelligible from Valentia since the 1st of September, except a few signals yesterday. I cannot send anything to Valentia. There has been very little variation in the electrical manifestations.

To Peter Cooper, C. W. Field, Col. Hunt and E. M. Archibald, N. Y.:

Trinity Bay, N. F., Sept. 25.--I have not the least wish to withhold particulars as to the working of the cable, and until I have communicated with headquarters and ascertained the directions of the manager of the company, I will send a daily report of the proceedings. We were not working to-day, but receiving occasionally from Valentia some weak reversals of the current, which when received are unintelligible.

To C. W. Field, New York:

Trinity Bay, N. F., Sept. 25.--Your message received. The day before yesterday we commenced receiving current from Valentia, and were in hopes that I should be at work again soon after; so I informed Mr. McKay, then the current failed. This will explain the discrepancy between his and my message.

The Burnt Steamer.

Halifax, Sept. 25.--Capt. Shear, of the barque Arabian, which arrived this morning, reports that at 7 o'clock on the morning of the 15th inst., he fell in with an iron screw steamer on fire, apparently of 1,200 tons. She had a gilt crown eagle head and straight stern head, naked, well forward, and her bottom had red paint on. Her upper works were destroyed, and the wood work above and below was all consumed. Her masts were gone and her sides were fallen in. The funnel was laying on the starboard side, but its color could not be told. The Arabian passed round the stern of the steamer, but no name was distinguishable. She is supposed to have been burning forty-eight hours.

The Arabian sighted a brig four miles to leeward; could not descry boats or signals of suffering in the distance.

Dispatches to private parties in this city corroborate the above. The description given makes it almost certain that the burning vessel was either the Austria or Alps, while the statement as to figure-head would seem to show that the former is the ill-fated steamer, that of the Alps being nearly a scroll head, while the Austria's was an Austrian eagle.

A private dispatch from Halifax to Mr. Cunard says: The Captain of the Rosenheath thought the burning steamer had a walking beam, but he did not observe any paddle boxes. He thought she was a wooden ship, but his mate states that she was of iron. She had a long overhanging bow.

Offers of 25 per cent, to effect insurance on the Austria were refused by the wall street office yesterday.

New York, Sept. 25.--No doubt is entertained that the burnt steamer was the Austria. She had eight of Francis' metalic life-boats--each of which would hold fifty persons--and three or four ship launches. Several steamers were doubtless in the vicinity at the time of the disaster, and the probability is, that all the lives numbering 540 passengers and crew were saved.

Case of Townsend, Captain of the Slave Brig Echo.

Boston, Sept. 25.--The case of Townsend, the alleged Captain of the slave brig Echo, was called up again to-day before Commissioner Loring, and the following witnesses were examined: Lieutenant Moffatt, Commander; Lieut. E. Bradford, Lieut. Charles C. Carpenter, Dr. J. L. Brown, Surgeon; Leonard G. Grinnell, Captain's Clerk; Edward G. Williams, Second Lieutenant; and Alexander T. Crossman--all of the Dolphin. The testimony was mainly a description of the capture of the Echo on the coast of Cuba, which has already been published. Lieut Bradford, who first boarded the slaver, could not identify Townsend as the Captain, it being dark at the time. The morning after he claimed to be simply a passenger, which character he has continued to assume. The further hearing was then postponed until Tuesday. The question of jurisdiction is the main one involved on the present examination.

Naval Appointments.

Washington, Sept. 25.--Commander Swartout has been orderek to relieve Commander Taylor, in command of the New York rendezvous, on the 26th October.

Commander Bradford has been appointed light-house inspector of the 3d district, vice Bell, detached at his own request.

Lieut. Condent has been ordered to the Navy Yard at Norfolk, and Lieut. Sinclair ordered to ordnance duty at the same place.

The following, who passed examination as Assistant engineers, have been warranted for service: Winfield S. Thompson, Edward B. Latch, George B. Sering, Edward S. Dick, Charles E. Develin, Robert N. Copeland, and Wm. H. Gladding.

New York Inebriate Asylum.

Binghampton, N. Y., Sept. 24.--Notwithstanding a rainy and disagreeable forenoon, many thousand persons were present to witness the ceremony of laying the corner stone of the Inebriate Asylum. The stone was laid in due ancient form by the Masonic Fraternity. John Lewis, Grand Master of the State of New York officiated.

In the evening the Presbyterian Church was jammed to hear the masterly oration of Edward Everett on Washington. Over one thousand persons were present, and the distinguished orator and his glorious sentence were received with raptures of applause.

Railroad Convention, &c.

New York, Sept. 26th.--The Railroad Convention met here this P. M., for the purpose of signing the agreement made on the 1st September. The fares and freight tariff will be advanced.

The Vigo, for Liverpool, took 275 passengers and $410,000 in specie. The Bremen, for Bremen, took 150 passengers and $65,000 in specie.

Congressional Nomination in Massachusetts.

Boston, Sept. 25.--The Republicans in the 10th Congressional District, in Convention at Palmer, yesterday, nominated on the 10th ballot, Charles Delano. On the 1st ballot Dr. Chaffee, the present member, had 52 votes, and Delano 3. Mr. Delano accepted the nomination. He is a lawyer, 31 years of age, and for several years past has occupied the office as Treasurer of Hampshire County.

Destructive Fire in Rock Island.

[Per the Illinois and Mississippi Telegraph.]

Rock Island, Sept. 25.--A fire occurred here last night on Madison street, opposite the Rock Island Railroad Depot. The following buildings were consumed: St. Charles Hotel and saloon; J. & J. Webster's grocery store, and two other buildings, all frame. Loss $16,000, partially insured. Undoubtedly the work of an incendiary.

The Captured Africans.

Washington, Sept. 25.--In a letter from Capt. Their effect upon the system is most miraculous; they give a healthy tone to the system, remove all morbid matter, and in fact thoroughly cleanse the system of all impurities. The proprietors, in presenting this preparation to the public, assure them that in no single case, when it has been used according to their directions, has it been known to fail, but on the contrary, new virtues have been discovered in its use. To those afflicted with any of the above ills of the body, the "Bitters" are offered as a speedy and certain cure. Try them and form your own opinion.

Republican Nominations.

For United States Senator,
HON. ABRAHAM LINCOLN.
For State Treasurer,
JAMES MILLER.
For Superintendent of Public Instruction,
NEWTON BATEMAN.
For Congress, 2d District,
JOHN F. FARNSWORTH.

Wanted—A Commission "de Lunatico Inquirendo."

If we were confidential friends of Mr. Douglas we should poke him in the ribs and ask him if he did not call it refreshing in a sultry atmosphere, for him to tell over that story about the agency of Lincoln and Trumbull in re-opening the Slavery agitation in 1854. The story runs thus: In the old times—the golden days of politics—the Whig and Democratic parties differed "about the "Bank, and the Tariff, and Distribution, and "the Specie Circular, and the Sub-Treasury." (We have printed this so many times since Douglas commenced his campaign that our types fall into it naturally.) But these old parties always agreed with each other on the Slavery question—he goes on. They made a grand rally in 1850 and adopted the Compromise measures as a finality of the Slavery agitation. Clay, and Webster, and Cass, and Fillmore and—ahem!—Douglas rallied to the support of those great measures of adjustment. Time rolled on. Clay went down to his honored grave, and Webster left the Capitol never to return. Hardly was the turf green over their venerated dust when, in 1854, Lincoln and Trumbull set about bringing all the Old Line Whigs and all the Old Line Democrats over into the Abolition camp to be christened by Fred Douglas! This is the whole story in short meter. We say if we were among Mr. Douglas' confidential friends we should insert a couple of fingers among his ribs and ask him if it was not a cool thing to be peddling among men whose memories embrace the period when he repealed the Missouri Compromise. History hardly presents another such exhibition of intrepid effrontery. It was cool on the part of an Israelitish priest to proclaim that his golden calf brought the people up out of the land of Egypt. It was pleasant for Catiline to address the Senate on the themes of conspiracy and parricide. It was interesting for Macbeth to revenge the murder of Duncan on the knaves who lay torpid with his own liquor. It was jovial and humorous for the Border Ruffians of Missouri to go burning and stabbing and plundering over Kansas under banners proclaiming "Law and Order," and for Douglas to call their leader a kind hearted and patriotic citizen. But not one of them exceeds in brazenness and assurance this story, repeated day after day to thousands of men who know it to be a glaring falsehood.

What are the facts? In 1850 the old Whig and Democratic parties *did* unite in passing and subsequently endorsing the Compromise measures. It *was* pronounced a finality. Both parties called down fire from Heaven on whomsoever should be instrumental in reopening the Slavery agitation. Both decreed that the agitation was allayed "forever." Four years passed by, and this same Douglas, who now inveighs against Lincoln and Trumbull for disturbing the harmony of the Union, set the country in a blaze with his Nebraska bill. All previous agitations had been placid compared with this. Under the storm which *his* breath blew up, the Democratic party went down in every northern State. The first victim was Shields, of Illinois. Without organization, without leadership, without even a name, the opposition to the Nebraska Infamy swept the State and placed Lyman Trumbull in the Senate to help undo the work of the arch-agitator, Douglas. This is a matter of history, so recent that the children at our schools can tell it over. And yet the originator of the trouble—the cook who prepared the receipt and boiled the broth of an agitation whose fury was never equaled in the memory of living men—has the face to charge the consequences of his own misdeeds upon those who opposed them from the very outset and oppose them still. With undaunted, unblushing front this man stands before intelligent audiences and tells them that Lincoln and Trumbull wouldn't stand by the peace measures of 1850, but that they fight him for refusing to become a party to their schemes of agitation!

We repeat that we know not where to look for another such exhibition of polished brazenness. If we were on terms of intimacy with the man who tells the story, we should ask him whether he did not fear the people would put weapons of self-destruction out of his reach, and shave his head, and blister his extremities, and treat him with a general prescription for lunacy.

Douglas and Lovejoy.

The handful of defunct Republicans of the Third District, who have bolted the party and gone over to Douglas, in consequence of the nomination of Lovejoy, have our sympathy in this their great extremity. We cannot admire their wisdom or commend their consistency; but we can and do pity them for the unenviable position in which they are placed. Let us see. Douglas and Lovejoy are in Congress—one in the Senate and the other in the House. They acted together during the one struggle of the last session—the great Lecompton fight—most cordially, we might say lovingly. Lovejoy is one of the Black Republicans with whom,—to use the classic but slightly obscure language of the Washington *Union*—Douglas "pigged." We do not know that they conferred together in private or embraced each other in public; but as Lovejoy voted Douglas voted, all the way through, from beginning to end of that memorable struggle. Lovejoy used to go into the Senate Chamber to hear Douglas harangue, and we have seen him in the lobby of that end of the capitol with his face all aglow with what he had heard. Perhaps Douglas did not return the compliment by going to hear and applaud what Lovejoy had to say upon one or two occasions, when he spoke passingly well, but his absence, if he was not there, may perhaps be attributed to the expansive ideas of dignity which the Senators generally entertain. Their relations were so unconsciously intimate, that though Douglas might not bear the mention of Lovejoy's name without an execration, and Lovejoy, we are certain, thinks Douglas about as bad a specimen of humanity as the Almighty ever had any hand in fashioning, Henry Wilson, another "miserable Black Republican" from Massachusetts, could take his arm from around Douglas' neck and his lips from his ear, and go over to the House and hug Lovejoy, and counsel with him as he had just counseled with the Senator in his seat. Now, we take it that this slavery question is about the only one that divides the parties at this time; and as Douglas and Lovejoy could and did act so fraternally together when that was under discussion, we do not see how our sore-footed friends in Lovejoy's district can bolt him, with his well known honesty, ardor and sincerity, and swallow Douglas, when they know all the anti-slavery sentiment he ever entertained, fell through four months ago.

The pretence that they come to the aid of the Senator, in consequence of his practically freesoil position, is pretence merely—a shield to cover their retreat into the pro-slavery camp from which they once timidly emerged; because, whatever may have been Mr. Douglas' action in conjunction with Lovejoy, he has since atoned for it by humiliations before the Slave Power, to which he never descended before. He set out for the Republican camp, if not in good faith, at least with the fear of defeat before his eyes. But he hesitated, halted, turned back; and now, we doubt not, bitterly repents the step into which, by the exigency of his position, he was betrayed. We condole with our tender-footed friends of the Third District who prematurely and unwisely set out to follow his devious and uncertain tracks. But that, like the fox in the fable, they should desire others to follow their unhappy example, is not unnatural; but that they will find others as verdant as themselves is unlikely indeed.

MR. LINCOLN AT DANVILLE.

How he Was Received by the Republicans of Vermillion.

[Correspondence of the Press and Tribune.]
DANVILLE, Sept. 22, 1858.

I proceed in accordance with my promise of yesterday, to give your readers an account of the Republican gathering to-day. Many of those who heard Douglas yesterday remained over to hear what Mr. Lincoln might have to say. People began gathering into town at an early hour, and by 12 o'clock, after the delegations from distant parts of the county had arrived, the mass was variously estimated, some putting the number at six, some at eight, and others at nine thousand persons. My own notion is that the gathering was thirty per cent. larger than the one assembled to hear Judge Douglas, which was four thousand and upwards by actual count. There was this difference between the two gatherings: half, or more, who heard Judge Douglas were Republicans; a few disorderly Democrats only listened to Lincoln. The difference in the enthusiasm was even greater in our favor than the disparity in the numbers of the respective meetings. One was a body of live Republicans full of enthusiasm, and confident of success; the other was a concourse who listened in sullen silence to their leader as he urged them to the field of certain slaughter. The disappointment of the Democrats in Judge Douglas is universal. It was confidently hoped that the advent of the Little Giant would revive the drooping Democracy of Vermillion; and to this end every effort was made by the leaders of that cause to get every one of their members out to hear the great Apostle, that they might become warmed and regenerated. They now as ardently wish "Dug" had stayed away and that the people had not heard or seen the man. Sir, I speak a truth which will be conceded by every intelligent man, be he a Democrat or a Republican, who heard him, that the most deadly blow the Democracy of Vermillion have received, was given by Judge Douglas when he addressed them yesterday. They had pinned their waning hope to a man whom they imagined a Sampson; but when they came to behold him and witness his strength of muscle, the giant dwindled to a pigmy and their hope was fled forever.

Not so with the Republicans. Lincoln has been personally known to the citizens of Vermillion for the last fifteen years. Every man who has within that time been on the grand or petit jury, or whose business, or curiosity has called to the sitting of our courts, knows Abraham Lincoln. His talent and honesty as a lawyer, his purity as a man, his scrupulous honesty as a politician are familiar and proverbial with every citizen of Vermillion County. This was the character and estimation of Lincoln with the people of this county long before there arose a necessity for the formation of the Republican party. Such has become the established integrity of Lincoln with us, that let a jury be empanneled from any part of our populous county, to try a cause, and they will take his exposition of the law and the facts of the case without a scruple, for they know, that as Lincoln has never misconstrued the law, nor perverted the evidence, they can follow him and do no wrong. And when a man brings this kind of a reputation on the hustings his power with the people is almost omnipotent. It is not the lies and sneaking innuendoes of Judge Douglas, or any underling who repeats after him, of nigger equality, abolitionism, voting against supplies, that will affect the unsullied standing of Abraham Lincoln, especially too, when his declarations to the contrary are worth more than the affidavits of the whole pack of his slanderers. Lincoln's speech was a great one. He dismantled every gun which Judge Douglas had brought to bear against him, and amid the shouts of delighted thousands riddled the rotten hulk of Douglas' Dred-Scott-Popular-Sovereignty Democracy from stem to stern.

For the Republicans the day was a great one; to the Democrats it was disastrous. The Republicans claim two victories; the Democrats acknowledge as many defeats. Douglas and Lincoln's speeches here have been powerful for the success of the Republican cause in Vermillion County, and Douglas' and Lincoln's same speeches were equally as serious a draw back to Democratic principles. Set Vermillion County down at four hundred majority for the Republican ticket, which figures we intend to go above by something less than a hundred votes.

VERMILLION.

Douglas at Urbana.

[Correspondence of the Press and Tribune.]
URBANA, Champaign Co., Sept. 22.

"We have met the enemy and they are ours." During the pleasures of the County Fair here yesterday, it was announced that the liliputian giant with the large white hat had arrived and was "a living." But the people are so used to circus performances they paid no attention to it. Senator Douglas had indeed arrived in town, but Morgan horses and Durham bulls were thought to be of more importance, and more reliable than the little dodger, so they "let him arrive," and that was the whole of it. A few aspirants to political favor indeed met him at the depot, and on call, two persons twice cheered him, but the third call came out a blank. No one could be found of his own party to take him to the Fair ground, so a good natured Republican volunteered and showed him this country by virtue of his office. So galled was Stephen at this that he determined to imbibe, and this he did so often that his friends hardly knew him, and certainly he knew not his friends. A Democratic acquaintance of long standing and a candidate for Representative, took him into his buggy, but the Senator was entirely unconscious as to who his protector was. Arrived at the Doane House, he walked the platform moody and alone. Some time after dark a leading partisan of his approached him, but Douglas turned on his heel and continued to walk, *solus*.

This morning, Douglas again ventured on to the Fair ground and shook hands with all the men, women and children, that would submit to it. One lady said, "Judge, I'll shake hands with you on account of my husband, who is slightly inclined to you and Dred Scottism, but I go for Lincoln." This seemed to be true of four-fifths of the male portion of the crowd here, as plainly evinced by their cheering and other demonstrations. But granting the day to Douglas, they agreed not to interrupt any services his few friends might wish to have.

Accordingly, the Band was engaged for a procession—a number of ladies, representing most of the States, were paraded on horseback—though the difficulty of getting a sufficient number to occupy the places was so great that free horses and $2,50 per day had to be offered for each equestrian so performing. These, with a few more in wagons, formed a procession at noon. They marched to the Doane House—in front of this they halted and waited till Douglas ate his dinner. This ended, a further march of two miles and a half was made to East Urbana for recruits—but it at last reached the speaker's stand at the Fair ground—no longer, or more enthusiastic than when it started. A noble Celt sang out, "Three cheers for Misther Douglas!" but they came not. One excited tow-headed young man cheered vehemently. So, after a dull, school-boy reception speech at the stand, by a Mr. Harmon, I believe, who hoped Douglas' heart would not grow faint, another set of cheers was called for, and again failed to be forthcoming. An ingenious device was resorted to as a substitute: the brass band was placed close to the stand, and when cheers were called for, the band blew a prolonged blast.

Of the speech of Douglas, what need I say, except that it was the *same*, identically the same, so often before spoken and reported. His two feeble-minded letter writers did not pretend to report a word of it—for what could it profit, when Douglas' best friends are sick now of its perpetual re-hash? That it was delivered with more pain than usual, was universally remarked. A very large majority of the people on the ground were Lincoln Republicans, but before the speech was concluded, there were few of these, or even Douglasites, present; they had gone to the depot to meet "Honest Abe Lincoln," whose banner had floated across the street all day.

He will have a rousing meeting to-morrow. Already large numbers are coming in from the several adjoining counties; among them, the most enthusiastic is a delegation over from Danville, accompanied by Judge Terry, an able lawyer and political speaker, and other Republicans. This band, and another one, as I write, are serenading Mr. Lincoln; and several hundred gentlemen are with them to greet him.

From Judge Terry and others, I learn that the Lincoln meeting yesterday at Danville, was one of the largest and best yet held—some 6,000 persons being present. It was at least two-thirds larger than the Douglas gathering of the day previous, although half of those who heard Douglas were Republicans; this was known from the fact that Lincoln badges were printed and worn by every Republican at the Douglas meeting, to distinguish them. On this account it was probably, that Douglas complimented the Republicans at the close of his speech, for their good order. In the procession to meet Lincoln at Danville were 136 couples of lady and gentleman equestrians, the ladies all in white, presenting a beautiful appearance. On the evening previous, 37 ladies, similarly dressed, met him, and some 500 men accompanied them. Vermillion is sure for 400 majority for the Republicans. That Champaign will vote the same way there can be no possible doubt.

Minnesota Constitution.

Editors Press and Tribune:

Will you be kind enough to answer in your valuable paper the following question: "Whether in the bill passed by Congress, the people of Minnesota were required to submit their Constitution to a popular vote for ratification.

We answer—There is a provision in the act for the organization of Minnesota as a State, imperatively requiring the Constitution to be submitted to the people for their approval or rejection.—[EDS. P. AND T.

Chicago Relief Society—Letter from E. C. Larned, Esq.

PROVIDENCE, R. I., Sept. 14.

Editors Press and Tribune:

I received a short time since a copy of the PRESS AND TRIBUNE containing the communication of Rev. Mr. Hadley, respecting the Relief Society. Having been President of the Society the past year, I deem it not inappropriate to state briefly my views in relation to a subject, which, as you justly observe, is of much importance to the public.

I agree in the main with Mr. Hadley's views as to the practical efficiency and real value of the Relief Society. I think it an institution which could be made a very efficient agency in the relief and prevention of pauperism in Chicago, but to become so, it must have a *continuous* existence, and a *permanent agent* and locality.

Some two years since, perceiving the entire want of anything like continuous or systematic action in the operations of the old Relief Society, it occurred to me that it would tend in some degree to remove or diminish the difficulty, to give to the Society a corporate existence and powers. I accordingly prepared a charter, which was passed at the last session, and which I believe contains all the powers and provisions which are necessary or desirable for such an association.

Under this act of incorporation an organization was effected and the operations of the past winter conducted.

The work of the last winter was as well done as it could be under the circumstances, and the money contributed by the public for charitable purposes was, in the main, judiciously and usefully employed. The plan pursued of giving *work* instead of *alms*, was, in my judgment, a most excellent one, and a large portion of the funds was employed in this way. The applications for relief were as carefully scrutinized as the time and circumstances would permit. The Society came fresh to the work, with no previous knowledge of the applicants; the winter was a severe one, and the amount of suffering among the poor unusually great, and in a very short space of time the association was called upon to investigate and take an appropriate action on thousands of cases.

But while I have no doubt whatever that Dr. Wardner and the other agents and officers of the Society did as well as could be done under the circumstances, and that the money contributed was in the main well bestowed, I have no hesitation in saying that to make the institution what it ought to be it must have a permanent locality, and a regular agent who shall be at his work continually the whole year round. Thorough and extensive information of the condition, character, habits and needs of the poor of our city is indispensable to any truly efficient and useful system for the *prevention* and relief of pauperism. I say *prevention*, for I deem the most important office of such an institution to be that of aiding to lessen and prevent pauperism. Such information can be obtained only through the labor of a competent man constantly in the field. In the annual report of the Society the importance of this is dwelt upon. But the Relief Society as now constituted, having no permanent or reliable fund or income, can make no engagements except temporary ones. Their means being derived wholly from voluntary contribution, are as fluctuating and irregular as the varying condition of public feeling and energy and tact of the different collectors can make them. It is impossible to anticipate with any certainty what amount of funds can be relied upon. No agent fit for the office would be willing to depend for his support on so precarious a reliance. Nor would the officers of the Society be willing to enter into engagements for any but short periods of time, without more certain means of fulfilling them. In addition to this, it is always found to give dissatisfaction to those who contribute money for the charitable purposes of the Society, to find any considerable portion of such contributions consumed in paying salaries and expenses.

Unless, therefore, there can be some provision made for the permanent employment of a suitable agent, and the establishment and maintenance of a permanent office or depot, I do not think the institution can be greatly useful to the community.

Two modes of making such provision may be suggested. One of the city, which is expressly authorized, by the act of incorporation of the Society, to appropriate such money as is deemed expedient for the purposes of the institution; the other, by creating, by voluntary subscription, a fund, the income of which should be devoted to this purpose.

Such an agent if properly qualified for the work would acquire extensive and accurate information of the true condition and wants of the poor in our city. He would systematize and preserve this information, and bring it to bear in the most useful and efficient manner upon the practical operations of the Society. Such an agent would be constantly bringing before the public mind the results of his labors—bringing clearly to light the evils to be remedied—the causes of pauperism and the necessities requiring charitable relief. The value of his labors would become obvious to the public mind, and the result would be that in time the true sources of pauperism and want in our city would be ascertained and remedial measures suggested and carried out, and the money contributed by the public for charitable purposes would be wisely and beneficially bestowed.

The Relief Society having, as has been stated, no means of employing an agent except for a few months of the year, will commence its operations the coming winter with little better advantages than the last, continue them for a short period and bring them to a close in the spring. This spasmodic action for a few months, followed by a suspension the *rest of the year*, which is the necessity of its present pecuniary condition, is and has ever been one of the great obstacles to its practical usefulness. This was one of the chief reasons which induced some of the most active and useful members of the old association last fall to advocate the dissolution of the old Society, they expressing the doubt whether it had not done as much harm as good; and I am free to say that unless the institution can be placed on a permanent basis (as above suggested), the amount of real good which would be likely to be accomplished would not, in my judgment, be sufficient to warrant the expense and labor incurred in effecting it.

Whether any such fund can be provided remains to be seen. For one, I deem the object most important, and if it should be deemed better to create a fund by voluntary subscription, should desire to contribute to it to the extent of my ability. There is scarcely a large city in the North where some such agency is not provided; and there is no city which, from its peculiar position and circumstances, stands more in need of it than Chicago.

I rejoice to see by your papers that the people of Illinois are wide awake, and that Lincoln is making such headway. His speeches have elicited great admiration, and received the most unqualified approval of the Republicans in these regions. I had hoped to have been at home ere this, and had some little share in the campaign, but an unfortunate injury, incurred by being thrown from a carriage some weeks since, has temporarily deprived me of the use of one of my limbs, and keeps me a close prisoner to my chair for some weeks to come. I trust, however, to be back before the fight is over.

Respectfully yours,
E. C. LARNED.

The Comet.

Editors Press and Tribune:

A few weeks since we had an account (by the Arago) of the discovery of the great comet of 1264 and 1556, at the Paris Observatory, some time in August, but its position not being stated, there was a doubt cast upon the subject until, on Saturday last, a very fine comet suddenly burst upon us above the north-west horizon. It became then an interesting question—was this the Grand Comet of 1264, or was it some new visitant of the solar system? As the orbit of the Grand Comet was known, it became an easy task to solve the problem—only requiring a single observation of position. The result is follows:

The comet of 1264 *might be seen* in the position of the present comet by a little change in the elements; for instance, by changing its perihelion distance from 5.10 to 6.10, or by advancing the node, or diminishing the longitude of the perihelion—all very possible errors when we remember the character of the observations in 1264 and 1556. But the supposition involves as a consequence, that the comet would then be so near as to exceed the Grand Comet of 1264 in dimensions. It would also follow that the descending node would be very near the Earth's orbit, with both bodies approaching that point with a velocity which would bring them into very close proximity in a very few days. But the want of magnitude and the comparative slowness with which the present comet is moving, is not only adverse to such a supposition, but is decisive that it is not the comet of 1264. This comet is moving between two and three degrees in a day in the direction of the handle of the Dipper, and is now situated in the left hind foot of the Great Bear. It is a very fine comet, and will be visible for a month to come at least.

Judge Kellogg at Monmouth.

MONMOUTH, Ill., Sept. 23, 1858.

Editors Chicago Press and Tribune:

Judge Kellogg our candidate for Congress, was here last night, and delivered a most effective and telling speech.

The Judge is now canvassing the District and is doing a good work. He will be re-elected by a large majority. Our cause is gaining ground daily. The Republican forces are being organized and are marching boldly up to the work, and the 2d of November will prove to the people of the State that Old Warren is sound to the core.

The Douglas men are becoming disheartened. Already they begin to waver. And well they may. They see the cloud looming up in the distance. They see the flashes hear the thunder; and they they seem already to hear the sentence of an indignant and outraged people pronounced upon them.

Yours, &c., I. G. M.

The National Horse Show at Mendota.

The National Horse Show, as heretofore announced, will commence at Mendota to-morrow, the 28th, close on Friday, Oct. 1.

We are assured that indications are favorable for an exhibition in no wise inferior to those held at Galesburg for the last two or three years, and that as fine a show of stock as the Union can boast is anticipated.

The great feature of the fair will be on Thursday, when the lady *equestriennes* will delight the multitude with exhibitions of their grace and skill in the management of their fiery steeds.

Mendota, it will be remembered, is at the point where the Illinois Central intersects the Chicago, Burlington and Quincy Railroad, and only eighty-eight miles from this city. The grounds on which the show is to be held are about half a mile north-east of the town. They occupy a commanding site, and have been fitted up with every convenience for the occasion. We learn also that ample accommodations will be in readiness for attendants upon the exhibition, however numerous they may be.

Several special trains will leave Chicago for Mendota daily during the continuance of the Show.

The Last Debate between Douglas and Lincoln.

[From the Missouri Democrat.]

We think we do not err when we say that impartial criticism will decide that in the debate between Douglas and Lincoln, at Charleston, the latter orator won the crown. He was especially successful in clearing away the mists of prejudice from the shining front of Republicanism. We shall not attempt to controvert the reputation for great ability which Senator Douglas possesses, but we venture to say that he has erred in his selection of topics for discussion. No one can read his speeches without coming to the conclusion that he entertains but a poor opinion of the intellectual capacities of the people. He always reminds us of the pagan priests and philosophers who professed esoteric as well as exoteric doctrines—who had plausible superficial theories for the mob, and profound startling principles for the initiated. Douglas harangues in the open court. He never introduces his audience to the inner temple, or gives them a glimpse of the deeper plans and policy which it may be fairly presumed the National Democratic party are maturing in their secret councils. Though he must have made fifty speeches at least in this campaign, he has announced no foreign or domestic policy, nor any scheme of statesmanship worthy of the name. He has proposed no method for the improvement of the national exchequer, or for the reformation of our financial system. The enunciation of philosophic truths cannot be expected from him, for nature has denied him the capacity for generalising; but certainly a man of his position and aspirations should have proclaimed some programme for future action. Compare him with Calhoun and his lofty though vicious maxims of States-Sovereignty, or with Clay and his system of protection and internal improvement, or with Benton and his system of Western expansion—and his inferiority will be evident. Except some vague, glittering generalities touching the annexation of Mexican and Spanish territory, he has expressed no views of a foreign policy—a singular omission, which leaves us in doubt whether or not he has a foreign policy. That he is an annexationist, we fully believe; but our faith is founded more on the unequivocal sympathy extended to him by the filibuster party of the South, than on his own utterances. A scrutiny of the leaders and presses of the South which support him in this his time of tribulation and trial, would discover that they are, without exception, for the record for a Southern annexation policy. The conservative pro-slavery party on the South and the extensionists of slavery westwardly are opposed to him, while the manifest destiny of men, who believe that Mexican soil is a better field for slavery extension than Western Territories, are zealous in his support.

Popular sovereignty—his great specialty—which, if it possessed the element of truth, would have crystalized, ere this, into a brilliant, indestructible political maxim, is yet as plastic as potter's clay, and receives a new shape every time he manipulates it in debate. From his free soil Freeport speech it emerged a very Frankenstein, dangerous and grotesque, which is ruthlessly pursuing him through his campaign. And what is another remarkable illustration of his amphibology—(as Benton called it)—the Richmond *Enquirer* maintains that the exposition of popular sovereignty in that speech is but the prelude to a federal slave code for the Territories. Thus, like his Kansas-Nebraska bill, the North and the South see each their own reflection in it, and impartial observers perceive it has really no well defined form whatever. The staple of his discourses is the danger of negro equality, as if Nature had not forbidden by inexorable laws such an event. How can there be negro equality when the negro is intrinsically inferior to the child of Circassian blood? When Nature has made him inferior, how can a political party, if it were so insane as to attempt it, make him equal? Can a greater insult be offered to the people of this country, who, during their historical existence, have preserved the incorruptibility of their race, than the assumption that negro equality is possible? Amalgamation, which, by infusing into the lower portion of the spirit and intelligence of the higher race may narrow somewhat, but can never annihilate the distance which separates both; and no statistics are needed to prove that amalgamation is one of the practical results of slavery. But to touch as lightly as possible on this indecent topic, on which Senator Douglas loves to dwell, we refer to Lincoln's triumphant vindication of the Republican party and himself, in this issue of the *Democrat*, from such preposterous imputations. Surely that party which rigorously demands the territories of the United States for white men exclusively, is less obnoxious to the charge of negroism in any form than the party which it opposes. This Mr. Lincoln remonstrates in a speech which abounds with more racy humor and telling repartee than political debates generally elicit. In vindicating himself, he vindicated the party whose organ and representative he is. Whoever has noted the progress of the controversy between him and Douglas must have observed that he has displayed more brilliant powers at each successive encounter. The longer the race the more manifest his spirit, strength and endurance become, while it is not less apparent that his antagonist is foundering. We think that new and cheering signs of the defeat of Douglas may now be discerned, and we are persuaded that even the co operation of the Buchanan faction with the Douglas faction, if that were possible, could not affect the result of the contest.

Interesting Particulars about the Comet

Speaking of the comet now nightly visible, the Washington *Union* says:

This comet was first discovered on the 2d of June last, by Prof. Donati, in Florence, Italy. It was first seen in this country by Henry M. Parkhurst, of Perth Amboy, N. J., on the 29th of the same month, no information having been received here of its discovery in Europe. One or two nights afterwards it was discovered by Miss Maria Mitchell, of Nantucket, Mass., who also supposed that it had not previously been seen. Thus there were three independent discoveries of this comet, while it was so faint as only to be visible with a telescope, or about the size of a star of the eleventh magnitude. A very striking characteristic of this comet, when it was first discovered, was its extremely slow motion. The great distance of the comet, and the direction of its motion as seen from the earth, combined to render its apparent geocentric motion very small. In consequence of this slowness of motion, it was very difficult for astronomers to fix upon its orbit with much accuracy, and there has been considerable difference of opinion upon that subject. It has already been visible in this country through a telescope for two month and a half; and, notwithstanding the numerous observations that have been made, it is doubtful whether or not it has passed its perihelion, or the point where it is nearest the sun. According to the elements as calculated by Mr. George Searle, assistant at the Dudley Observatory, it passed its perihelion on the 13th inst.; the orbit as calculated at the National Observatory here, gives a result nearly similar; according to the orbit as calculated at the Cambridge Observatory, it should not reach its perihelion until about the 20th inst; but Mr. Parkburst assigns it a period about a week later than that. He states that "the comet will be approaching both the earth and the sun until October, (or at least not materially receding from the sun) and will not probably reach its maximum of *inherent* brightness before the middle of October. It will therefore continue to grow more conspicuous until it begins to be again merged in the twilight. But it will very soon change its course to the South, and move so rapidly that it is not likely that it will be seen so late. My last observations seemed to indicate a decidedly elliptical orbit.

He thinks that the orbit cannot be a parabolic, as a parabolic orbit would not correspond with the observed positions of the comet in June and July last. An elliptical orbit, the ellipse being of moderate eccentricity, would give a period of revolution around the sun much shorter than a parabola. The elements correspond very nearly with those of the first comet of 1827, and with those of the comet of 1764. This would make the period of revolution about 31 years, and allow of two revolutions between 1764 and 1827, as a difference of half a year in the period of revolution may be readily accounted for by perturbations. If this be the correct period, its next return may be expected about 1889 or 1899.

Montgomery County.

Our accounts from Montgomery are of the most cheering character. The Circuit Court is now in session at Hillsboro, and that thriving and beautiful town is the theatre of a very warm and exciting political battle. The town is full of people, and nearly all the inhabitants have deserted their ordinary avocations and are giving their undivided attention to political matters.

On Monday night A. McWilliams, of this city, addressed the Buchanan Democracy, who are said to be very numerous in Montgomery county, and who intend running a candidate for the Legislature against Jim Davis, the Douglas candidate. Joseph Gillespie, of Madison county, delivered a most effective speech to a very large audience on Tuesday afternoon, and was followed in the evening by James H. Matheny, of this city, independent candidate for Congress against T. L. Harris. Vandever, of Christian county, was put up to ask questions but after being set down violently a few times by Matheny, he shut up.

The Whigs, Americans and Republicans of Montgomery are thoroughly united and working in harmony to promote the downfall of the double headed bogus Democracy, while the latter are broken by divisions and dissensions, and will be unable to concentrate their forces upon any of their candidates. Jim Davis was announced for a speech on Wednesday, and if he made his appearance, which was considered doubtful, he was to be replied to by Mr. Gillespie.—*State Journal.*

Gold Specimens from Pike's Peak.

The St. Louis *Democrat* of Friday says:

Some specimens of this gold have already reached this city. Several days ago were shown vuite a handful of the scales and dust; and yesterday Mr. Cook, of the firm of Cook & Mathews, of this city, exhibited to us a fine specimen. It was sent to this city by Mr. Cook's brother. It is a ragged lump worth about $40, and contains a few lumps of quartz.

We are on the eve of an intense gold excitement in the West. The presence of large quantities of the precious metal in the neighborhood of Pike's Peak is now conceded on all sides; and during the coming winter, thousands of adventurers from the Western States will be pouring along the head waters of the Arkansas river. Already several companies have started from this city. By next spring the rush will be immense from all parts of the Union.

Just the Place for an Epidemic.

The Natchez *Courier* gives the following description of the sanitary condition of New Orleans, which is in the main indorsed by the papers of that city:

Cologne certainly could not have been much more odoriferous than its sister of the Mississippi. Its low, flat back streets and alleys, along which the stagnant liquid mud is seen, green in its decay, and rotten in its substance, give forth exhalations in themselves enough to breed an epidemic; while the city authorities seem bent on making that still worse which was bad enough before. They have selected the month of September, and the season of an epidemic, to dig up the moist earth through several of the business streets, under pretence of repairing gas pipes.

☞ The annual assessment of property in St. Louis shows that there are now in that city 929 slaves, valued at $458,055.

TERRIBLE TRAGEDY.

A WHOLE FAMILY DROWNED!

A Mother Murders her Four Children and Commits Suicide!

[From the Ohio Statesman, Sept. 23.]

Our citizens were shocked yesterday morning by a rumor that a horrible tragedy had occurred near Grove City, a village about nine miles from this place, the particulars of which, as given to our reporter on the spot, are substantially as follows:

A woman by the name of Christiana Schilling, residing with her husband about half a mile from the village of Grove City, Jackson township, in this county, yesterday morning, about one or two o'clock, during the absence of her husband, murdered her four children, three girls and a boy, by throwing them into a well, and afterwards jumping in herself. From the evidence elicited by the Coroner, and the statements made to our reporter by the neighbors, it appears that Frederick Schilling, the husband, was attending a wedding party near Grove City when the deed was committed, and that the wife, Christiana Schilling, conveyed the children from their beds to the well, a distance of one hundred yards, while they were asleep, and then pitched them into it, and afterwards flung herself in. No possible motive can be assigned for the deed, and it is the general impression among the neighbors that Mrs. Schilling was insane. Neighbors passing the house, which is a miserable log cabin, standing about a quarter of a mile from the main road, say that they heard the mother and her children singing a hymn about ten o'clock at night. The husband and father, it seems, did not return from the wedding party until daylight, and before that time a lady neighbor having occasion to draw water from the well, had discovered the bodies of Mrs. Schilling, and the four children floating on the surface. She immediately gave the alarm, and several gentlemen came to the spot and raised the mother and her four children from the well. The family consists of a boy named Valentine, ten years of age, Christiana, a girl twelve years, Caroline, five years, and Augusta, three years of age. Mrs. Schilling was about thirty-six years of age, and was, to all appearances, an intelligent, healthy and handsome woman. When our reporter visited the house, the dead bodies of the five unfortunate beings were laid upon two beds in the only sleeping apartment in the cabin, and a more melancholy spectacle it has never been our misfortune to behold. The children all looked healthy, robust and beautiful, and with the exception of a slight scar on the forehead of the boy, no marks of violence were visible. A crowd of people of both sexes were in the room, all awe stricken by the horrible catastrophe.

No evidence elicited by the jury of inquest goes to show that any other person than the mother could have committed the deed. It is generally believed that she was laboring under a fit of insanity, as it was stated that she had, about a year ago, attempted to commit suicide during a fit of phrenzy to which she was subject. This is the only probable and humane view that can be taken of the matter; and it is meet that this mantle of charity should be thrown over the dead. No relatives of the unfortunate family reside in this country, but those intimately acquainted with Mrs. Schilling say that she was an eccentric and superstitious being, and that she frequently said that she was "bewitched;" and the neighbors say that she had occasion to be jealous of her husband, and that she was ill-treated, &c. A thousand vague and different reasons are assigned for the deed, but the true motive is covered with a veil of impenetrable mystery. No responsibility has yet been laid to the husband of the deluded woman, and no doubt whatever can be entertained that he was entirely innocent of the deed. A horrible and mysterious calamity has desolated his house, the true history of which can only be unravelled by a wisdom higher than earth.

The lady who first discovered the bodies in the well, says that she intended to get some water from the same, but found it impossible to sink the bucket, and upon looking down, she could see the clothes of the woman and children floating on the surface. She was at a loss to imagine what it was that obstructed the bucket, and was horrified when she found it was the bodies of the family of her neighbors. The well is thirty-five feet deep, and contains about five feet of water. The windlass and bucket were in their proper places when first discovered, and no signs whatever were visible, in the darkness of the morning, of the terrible deed.

The Great Conflagration and Explosion at Astrachan.

Concerning the great calamity which has befallen the flourishing commercial city of Astrachan, of which the English papers by the last arrival furnish so meager an account, we find full details in our German files. According to the Cologne *Gazette*, the fire first broke out about 10 o'clock on the evening of the 12th of August, in a warehouse of cooper's hoops, on the left bank of the Volga. In less than fifteen minutes the flames extended to a neighboring lumber dock, which was totally destroyed. Meanwhile a high wind having arisen, by half past ten another dock and several dwelling houses were in flames, and the fire rapidly spreading, it was found necessary, in order to arrest its progress, to tear down the buildings in its course. This apparently checked the conflagration in the direction of the wind; but about 3 o'clock some burning brands were blown upon a lumber-loaded bark lying in the harbor, and in a few minutes the flames shot up mast-high, communicating to other vessels lying near, and soon a whole fleet of burning vessels parted their anchors and floated down the Volga, in their course setting fire to others.

After floating some five versts, the burning mass brought up at an uninhabited island, where some of the vessels sunk and others burned to the water's edge. Near this island, however, two of the vessels came in contact with a bark loaded with powder, which had arrived the previous evening, and a tremendous explosion ensued, setting on fire a large government provision warehouse and a private lumber depot, which were entirely destroyed. At 10 A. M. on the 13th, several of the burning vessels left their anchorage and floated towards the so-called Czar's Roadstead, while the flames communicated to seventeen government vessels, loaded with provisions. A bark with a cargo of ammunition, and three ships freighted with cloth, all belonging to the government, were likewise consumed. The property destroyed in the city comprised 121 dwellings, 11 docks, many of them full of goods, and a stone church dedicated to the Virgin Mary. The number of vessels lost and the value of the property destroyed have not yet been ascertained.

Astrachan is the capital of a province of like name, and is situated on an island in the Volga river, about forty miles above its mouth. It has a population of about 75,000, embracing Russians, Armenians, Tartars, Persians and Hindoos. The surrounding country is very fruitful, and abounds in gardens and vineyards, while the river is well supplied with fish, a staple article of inland trade. Astrachan has been for many years the seat of a flourishing if not an extended commerce. Its exports comprise leather, linen, woollens and other European manufactures, while its imports, mainly from Persia, consist of raw silks, manufactured silks, scarfs, goods of cotton and silk, cotton, rice, rhubarb and other drugs.—*N. Y. Eve. Post.*

Horrors of the Slave Trade.

[Correspondence of the N. Y. Times.]

HAVANA, Sept. 14.—A Spanish Slave Company was formed here the early part of last winter, the originators and promoters of which were Zulueta and Portilla, our heaviest dealers in human flesh. Vinas, the owner of the ship Iberia, and a brig, the name of which I have forgotten, were induced to enter. Vinas cleared for Cadiz, where he arrived, discharged his cargo and loaded again, ostensibly for Hamburg, but proceeded to the East Coast of Africa, where slaves to the number of two thousand were huddled together, on the two vessels, scantily provisioned and short of water. A few days after doubling the Cape, the fresh water began to give out, and the negroes were forced to drink the salt water! Out of the 2,000 that left the coast eight hundred were buried at sea, and the rest reached here afflicted with the worst kind of scurvy. The brig landed her cargo at Bahia Honda, and was abandoned, and subsequently found by a Spanish cruiser and brought into this port, where she now lies. The ship landed her part on the South side of the island, where the negroes were transferred to Zulueta's estate. The Iberia then sailed for Bahia Honda, where she refitted for a second voyage and put to sea, but the pilot ran her aground on the Colorado reefs, where she was captured. I am informed that of the six hundred negroes landed from this vessel and conveyed to Zulueta's estate of the Alava, upwards of four hundred have died, and the rest continue to drop off one by one, notwithstanding the best medical skill sent from Havana at enormous salaries!

The Noblest Task of Man—The Salvation of Human Life.

It is something to discover a new planet in the heavens, a new island, a new race, and the Sybarite offered a prize for the discovery of a new enjoyment. But how immeasurably does even the best of these achievements fall short of the discovery and application of new and successful remedies for disease. This great and good work has been accomplished by Professor Holloway, who has eclipsed all his predecessors and cotemporaries and rendered himself the "foremost man of all this world," so far as medical science is concerned, by the invention and universal diffusion of his Pills and Ointment. While nations have been at war, and destruction, invoked by ambition and jealousy, has deluged the earth with blood, this hero of peace has been fighting pain and suffering in every region with weapons not obtained from the arsenal but the laboratory, and conquering them in every encounter. The loud hurrah that hails the successful warrior lord of the stricken field, is worthless in comparison with the grateful peans of recovered multitudes, who have been restored to health and usefulness by these matchless curatives. To dwell in detail from every land between the outer circle and the centre of civilization, declaring them to be absolute specifics for all internal disorders.—*Boston Traveller.*

The Merchants' Union Prayer Room at New York.

A New York correspondent thus describes the room just fitted up, by the merchants of New York, for the purpose of holding noonday prayer meetings:

The return of our merchants to the city has been signalized by the opening of a new place for daily prayer, literally in a place where "merchants most do congregate." It is in Old Slip, between Wall street and the Battery, in the very heaviest of commercial life. A room has been taken and permanently secured by the merchants of our city. It has been most elegantly fitted up; the floor is fully carpeted all over; the walls are papered and edged with border; the settees are cushioned; the windows are curtained, and on each curtain is a text of scripture appropriate to a place of prayer. On the door is painted, in gold letters, "The place of prayer;" on the post below is painted, "Union Prayer Meeting from 12 to 1 o'clock;" and all this in the busiest part of the mammoth trade of New York.

— Hon. F. K. Zollicoffer, member of Congress from the Nashville district, Tennessee, has been appointed President of the Nashville and Chattanooga Railroad.

Personal and Political

John A. Gurley, Republican candidate for Congress in the 2d District of Ohio, is giving Groesbeck a very hard run. On Thursday evening he made a crushing speech in review of his opponent's course in Congress on the Kansas question. The *Enquirer* is down upon him for having the presumption to own houses and lots in Chicago. Says the *Commercial:*

It is also asserted, in some quarters, that he has the temerity to own a good farm in Green township, Hamilton County, Ohio, and to live upon it; that he raises grain, has planted fruit trees, and absolutely becomes acquisitive of bees. How shocking for such a man to run for Congress in Hamilton County!

—Gray, of the Cleveland *Plaindealer*, notwithstanding he has been turned out of office, and been nominated for Congress by the Douglas Democracy, still plays an obsequious fiddle to the Administration, *a la Douglas*.

—A reverend preacher in Florida having recently preached a sermon to prove that "Africans have no souls;" Prentice pertinently comments: "He had better be careful. How can he expect his disciples to consent to go to heaven if they can hope to have no niggers there?"

—Immense swindling was perpetrated in the Sixth District of Maine to defeat Foster (Rep.) for Congress, but the game didn't win. The district lies in the Aroostook wilderness, and presented fine facilities for the Democrats to carry out all manner of frauds.

—Parson Brownlow, finding that slang did not carry the day in Philadelphia, challenged Pryne to a discussion south of Mason and Dixon's line, which the latter very sensibly declined.

—A Washington dispatch says it is true that the Navy Department has sent vessels to the coast of Cuba to intercept slavers expected there, but who believes they will execute their ostensible mission?

—The Ohio *State Journal* mentions a rumor that S. S. Cox is to be withdrawn from the ticket in that District to give place to a more popular Democrat.

—It is said that Rarey, the horse tamer, did not succeed very well in subduing vicious horses at the Springfield Fair.

—A letter from J. C. Hooker, Esq., of the firm of Packenham & Hooker, bankers at Rome, announces that the Republic of San Marino, in Italy, has awarded a medal to Miss Maria Mitchell, the astronomer of Nantucket.

—Ex-Governor William Walker, of the Wyandotte Indians in Kansas, complains that in 1855 he gave a valuable old portrait of a celebrated Indian to Baron Clinch of Germany, who promised to send him in return a barrel of fine Rhenish wine, but the wine has not come. The Indian chief thereupon exclaims, "Give me nature's in preference to patent nobility."

—The Green Bay (Wis.) *Advocate* says that the only son of the late Rev. E. Williams, and of course the next heir to the throne of France, is now engaged as a pilot on one of the Lake Winnebago steamers. He is a fine-looking young man, bears a striking resemblance to his father, but is too modest, to urge his claims.

—During a recent visit to Frankfort-on-the-Main, Prince Matternich, calling aside the host of the "Roman Emperor" Hotel, at which he was stopping, stated that on that day, (the 23d of August,) it was just eighty years since he, then a lad of five years, had first set foot in that house, in the retinue of the Emperor Joseph II. of Austria.

Indian Troubles in Texas.

The Indians in Texas are giving a good deal of trouble to travelers in the vicinity of El Paso. We learn from the San Antonio correspondence of the N. Y. *Herald* that a party of four gentlemen, one of them the United States suttler at Camp Hudson, were attacked by a band of Camanches, and one of them wounded in the face. All their horses were killed. The Indians were scalping all the whites they could find. A council of Camanches, Cheyennes and Apaches was held lately, and a regular system of hostilities on the border settlements and trains agreed upon. The number of United States troops in Texas and Arizona is represented to be quite inadequate to the present emergency.

PENNSYLVANIA RAILROAD.—The following facts and figures give some idea of the magnitude of the operations of the Pennsylvania Railroad Company, which gives employment to 4,200 men. The workshops at Philadelphia, Columbia, Harrisburg, Mifflin, Altona, Conemaugh and Pittsburgh employ 2,000 of these, and the remaining are distributed along the line—on the trains, &c. 679 miles of track are owned by the company. Of this, 355 miles are main track. 268 miles are second track, and 56 miles are sidelings. The receipts per mile are greater than on any other road in the country, the gross receipts being less only than those of the New York Central, which is using 600 miles of main track daily.

Maine Election.

BANGOR, Me., Sept. 21, 1858.

We have reports to-night from Aroostook County complete, with the exception of one small plantation. The Republicans put Bradbury's majority in the county at 935, while the Democrats claim for him 985. This would leave the whole district, according to previous report, from 56 to 106 majority for Foster, the Republican candidate.

The Democratic candidate for State Senator in Aroostook, is reported here to be defeated. If so, the Senate will be unanimously Republican.

Flouring Mill Burned.

We learn that the flouring mill, at Watervleit, Berrian county, Michigan, owned by Mr. J. W. Medbery, of this city, and Mr. J. F. Aldrich, of Chicago, was destroyed by fire on Wednesday night last. The mill was valued at $6,000, and insured for $2,500. The fire was caused by carelessness on the part of the miller. On leaving the mill in the evening he "choked down" the stone, but did not shut off the water. As a necessary consequence, some time during the night the water started the machinery, and the friction set fire to the mill.—*Milwaukee Sentinel*, 25th.

THE OYSTER SEASON IN ENGLAND has commenced and the honorable Lords and Cockneys of Her Majesty's realm were, as they supposed, regaling their palates with the best of the Bivalves that either hemisphere afforded. But they have found out their mistake, and the Copper Flavored Oysters of Great Britain are in no demand, they cannot be given away. This revolution was caused by the advent of a few cases of Hatch, Mann & Co.'s celebrated Baltimore Oysters in the London market, which had been ordered by steamer to be used in the Festivities of the Celebration. Messrs. Hatch, Mann & Co. have opened their Great Western Wholesale Depot at No. 139 North Water street (between Clark and Lasalle streets, in Abby & Co.'s Stoneware Depot), where can be found in their season Shell and Can Oysters, fresh from their beds, and received daily by Express. Also—Spiced and Hermetically Sealed Oysters constantly on hand.

The fact that H. M. & Co.'s Oysters have acquired in every market during the past four years, is a sufficient guarantee that they cannot fail to give satisfaction superior to all others now in market.

Medicines &c.

DR. MANN'S
AGUE BALSAM,
UNRIVALLED IN THE
HISTORY OF MEDICINE.
WHY? BECAUSE SINCE THE FIRST settlements of the rich prairies and fertile valleys of the West, it has been the great study of all Physicians to produce a perfect cure for ague, fever, and all billious diseases, so thoroughly prevalent and so fearfully fatal in their results. The mineral and vegetable kingdoms have heretofore been ransacked in vain except for remedies only partially successful, but this is entirely vegetable and will never fail. Reader, we defy you to find a case so obstinate that Mann's Ague Balsam will not cure; we do not hesitate to say that the remedy so long sought has at length been found that will never fail. See the following:

Oberlin, Ohio, June 1st, 1858.
Messrs. S. K. Mann & Co.—Gents: Having had occasion to use some of your Ague Balsam in my family, I find it the most prompt and efficient remedial agent for the certain cure of ague ever used, and as a strengthening tonic I think it has no equal. Your Ob't Serv't,
SAM'L HENDRY.

Olney, Ill., September 20, 1857.
Messrs. S. K. Mann & Co.—Gents: Your Ague Balsam is the only remedy that seems to meet the wants of the people of this locality. We have, upon our shelves, all the popular remedies of the day for the cure of intermittents, but Dr. Mann's Balsam sells in preference to all others, from the simple fact that it cures. It is destined to excel all other remedies ever offered. Truly Yours,
G. W. HAYNE.

Dr. Mann & Co., Gallion, Ohio—Gents: Your Ague Balsam is the people's own remedy, in this part of the country, for the cure of ague and fever. We have never known it to fail in any case when properly used. It is looked upon as a perfect antidote to malarious diseases.
Very Truly Yours, REED & PETTIJOHN.
Cairo, Ill., May 15th, 1858.

Seymour, Ind., April 20, 1856.
Messrs. S. K. Mann & Co., Gallion, Ohio—Gentlemen: I would say, for the benefit of all concerned, that I have a little daughter, about six years of age, that has had the chills ever since last fall; we could do nothing with it until we received your Balsam. We commenced giving it according to directions and are happy to state that she has not had a chill since she commenced taking it. I shall use my exertions in the bounds of my influence to give your Balsam a circulation.
Respectfully Yours, N. P. EDWARDS.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

FACTS FOR THE PEOPLE.
RESPECTING
Dr. Christie's Ague Balsam.

DR. CHRISTIE'S AGUE BALSAM is the best remedy for the permanent cure of Chills and Fever, Fever and Ague, Dumb Ague, and all malarious diseases incident to the climate.

DR. CHRISTIE'S AGUE BALSAM has never been known to fail where the directions have been strictly followed.

DR. CHRISTIE'S AGUE BALSAM is a PURELY VEGETABLE COMPOUND, Containing neither Arsenic, Quinine, Strychnine, or anything of a poisonous or deleterious nature.

DR. CHRISTIE'S AGUE BALSAM has had for years the largest sales of any remedy for a specific disease ever offered to the public.

DR. CHRISTIE'S AGUE BALSAM has attained its immense popularity through its own merits, its great power in curing disease, its singular harmlessness and freedom from hurtful ingredients. It can be taken by the helpless infant, vigorous youth and feeble age, ever without injury, and always with benefit.

READ WHAT AGENTS SAY.
Dr. H. Simmes, of Mattoon, Ill., under date of Aug 3d, 1858, says:—"Send me another lot of Christie's Ague Balsam as I have but two bottles in store, and the demand is on the increase. I am insuring every bottle, and none have been returned."

J. W. Plummer Druggist, Vinton, Iowa, under date of Aug. 24th, 1857, writes:—"Send me half a gross of Christie's Ague Balsam, I have but three bottles on hand and it is selling rapidly. It is the best remedy for Ague I have ever sold."

Mr. A. N. Blackledge, of Metamora, Ind., writes us June 12, 1857, and says that the Balsam has cured in every case where taken. He further says that one case came from the Wabash, Mr. S. W. Swigert, who had the Ague eighteen or twenty months. He insured three bottles to cure him. He took only one bottle and the result was a permanent cure. He had paid about $60 doctor bills.

AFFLICTED FOR YEARS.
Delphos, O., Jan. 13, 1858.
Messrs. Hunt & Gardner—Gents:—I wish to make known to the public an article, from which I have derived more benefit than from all other medicines which I have ever used. I have been suffering from Fever and Ague and its effects, for the last five years, during which time I have scarcely enjoyed a day of good health, until I procured from your drug store a bottle of Dr. Christie's Ague Balsam. In a few days I found myself clear of ague and rapidly recovering in health. I have not felt a symptom since I commenced taking it, (about six months,) although constantly exposed to cold weather. To my friends and the public generally, suffering from this disease in any form, I would say, procure a bottle and save health, constitution, and money.
Yours, J. B. GROSCOST.

Above are only a few testimonials in favor of CHRISTIE'S AGUE BALSAM, but space forbids publishing more. Price $1 per bottle, or $6 bottles for $5.

THE KANSAS CITY REAL ESTATE Association will offer at Public Sale to the highest bidder
SIX HUNDRED LOTS
IN KANSAS CITY, MO.,
THE METROPOLIS OF THE FAR WEST!
Commencing WEDNESDAY, October 20, 1858, and continuing three days.
No city in the West combines greater or more varied advantages, Commercial, Agricultural and Manufactural, and few places present instances of such rapid development.
THE GEOGRAPHICAL CENTER OF THE UNION!
Kansas City is situated at and below the Mouth of the Kansas River, *on the Great Angle of the Missouri River*, where that stream changes its course for the east after flowing southward more than two thousand miles, leaving Kansas City the nearest point on navigable water to a region the most fertile in the world, and more extensive than the States of Missouri, Iowa, Illinois, Indiana and Ohio combined.
RAPID GROWTH OF KANSAS CITY.
An insignificant "landing" for Westport and Independence in 1855 with a few hundred inhabitants—Kansas City in 1858 contains a population of 7,000, and at no previous time were so many, and extensive improvements in progress.
ITS COMMERCE WITH THE TERRITORY AND THE GREAT PLAINS.
The commerce of Kansas City is commensurate with its unrivaled advantages as the gateway of the Territory of Kansas, and the Metropolis of the Plains. The statistics of its trade compiled from the books of its merchants show its business for 1857
Over Six Millions of Dollars!
This immense trade which exceeds that of any other city of the same population in the United States embraces sales and Imports to the Territory of Kansas, New Mexico, the Indian country, Southwestern Missouri, and the regions lying at the base of the Rocky Mountains.
NATURAL RAILWAY CENTER.
The terminus of the Pacific Railroad, from St. Louis, has recently been located at Kansas City, and the prospect is certain of its completion in less than two years. Charters have also been obtained for roads to connect Kansas City with the great systems of Eastern Railroads, stretching westward, from Chicago on the north, and Memphis on the southeast. These Railways will converge at nearly equal distances at the mouth of Kansas River, Kansas City is manifestly the great converging point of the Great Central Railroad to San Francisco, and as the farthest western central point of Steamboat navigation, it must become the Railroad focus of the broad and fertile lands beyond.
TERMS OF SALE.—One-third in hand, the balance in one, two and three years, with six per cent. interest per annum.
All letters desiring further information will receive prompt attention if addressed to the corresponding of the Association.

Special Notices.

All those who are afflicted with any Chronic disease considered incurable, will receive a Letter giving information which will insure a speedy and permanent cure by sending their names and one stamp (to prepay postage) to Dr. E. B. FOOTE, the celebrated Chronic Physician, and author of "Medical Common Sense," Saratoga Springs, N. Y.

Dr. Christie's Ague Balsam.—The excessive heat of the past summer has left almost everybody in a debilitated condition, and therefore liable to bilious diseases. The fever and ague is now quite prevalent, and we consider it our duty to call the attention of the public to one of the greatest remedies of the age for all Bilious Complaints, such as Fever and Ague, Chills and Fever, Dumb Ague, &c. Unlike nearly all similar preparations, it is free from poisonous substances, and it can be administered to all ages and classes without injurious results.

Use no other Ague Balsam except CHRISTIE'S, as there are several articles by that name, which are totally unlike Dr. Christie's, the original inventor. See Advertisement.

BOLLES, SMITH & CO., 14 South Water street, Western Agents, to whom all orders should be addressed.

For sale by druggists generally.

Sawyer's Fluid Extract of Bark, an infallible remedy for the Fever and Ague, and the various forms of Bilious Diseases, Intermittent, Remittent, Chill Fever and Dumb Ague, having their origin in malaria of very fertile and marshy districts, prepared by Dr. A. B. Sawyer, Druggist and Chemist, and sold by Sawyer, Paine & Co., No. 16 Lake street, Chicago.

This remedy is prepared entirely from vegetable substances, and contains no mercury, arsenic, or anything that can prove injurious to the system. Its effects are those of a deobstruent and tonic, well adapted to restore the healthy action of the Liver and Stomach, whose functions are so generally impaired in this class of disease.

Quinine and other tonics serve only in many cases to break the chills, but do not remove the diseases of the liver and other organs implicated, on which the chill and Fever depend; hence the usefulness of the "Fluid Extract of Bark," (particularly in regions where Physicians cannot be readily consulted), which contains all the qualities suited to the indications of these maladies.

Hundreds of testimonials in regard to the efficacy of the medicine from persons of respectability, have been given to the proprietor—but he does not make use of them as he prefers to have the medicine introduce itself securely by its merits.

Dyspepsia and Fits.—Dr. O. Phillips BROWN, The Great Curer of Consumption, was for several years so badly afflicted with Dyspepsia that for a part of the time he was confined to his bed. He was eventually cured by a prescription furnished him by a young clairvoyant girl. This prescription, given him by a mere child, while in a trance, has cured everybody who has taken it—never having failed once. It is equally as safe in cases of Fits as Dyspepsia. The ingredients may be found in any Drug Store. I will send this prescription to any person on the receipt of one stamp to pay postage. Address DR. O. PHILLIPS BROWN, No. 21 Grand st., Jersey City, N. J.

Hovetter's Bitters—For sale by Fahnestock & DAVIS, 118 Randolph street.

Charles' London Cordial Gin.—The Original and only London Gin Imported. This Gin, distilled in London from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the Vegetable Kingdom, rendering it in the opinion of the most eminent medical men, the purest and safest stimulant or diuretic drink in use.

It is a delicious tonic of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnaps so objectionable.

Though not intended as a medicine, it is recommended by physicians generally in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, the Kidneys and the Bowels, Nervous Debility, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to settlers in the Southern and Western States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and pints thirty-eight cents, by all Druggists, Grocers, Fruiterers, and Country Merchants. Beware of imitations. Buy only CHARLES', NONE OTHER IS IMPORTED.

May be had in Chicago, Ill., of FENTON, ROBINSON & SMITH, No. 15 South Water street; HAVEN, TYRRELL & CO., No. 57 South Water street.

FORD & BRADLEY, 6 Dearborn street.

A most Valuable Remedy for Headache.—Dr. E. A. Wilson's Tonic Cathartic and Anti-Dyspeptic Pills. Rev. W. G. Howard, Pastor of the 1st Baptist Church, Chicago, in a letter addressed to Messrs. Fahnestock & Davis, dated June 18th, 1858, says:—"During the last twenty years I have made use of a great variety of medicines prescribed by Allopathic and Homoeopathic physicians, but all have failed; and I had relinquished all hopes of relief, until I was induced to resort to WILSON'S PILLS. CHICAGO.

I OFFER THIS IMPROVED TURBINE Water Wheel to the public with the fullest confidence and assurance of its

SUPERIORITY OVER ALL OTHER WHEELS,

Without any exception. They are well adapted to (and have been tested in) Mills of all descriptions. They give a very

STEADY AND UNIFORM SPEED,

And are well adapted to very high as well as very low heads and falls. They will work well in back water without being troubled with ice, as they are set inside of the forebay and discharged underneath. It requires a small amount of gearing to get up a high speed, costs but little to set up, and runs upon a step that needs no oiling and will last for years. This wheel is capable of yielding a per cent. of 70; 85 per cent. of the whole power of the water (according to the degree of finish of wheel) under high heads and falls, and in all cases it is warranted to work up to the power laid down in the table and to give satisfaction when properly put up and geared.

Gleanings from the Niagara's Mails.

THE LATEST NEWS OF THE CABLE.

The London *Times'* city article of the 10th inst. says the condition of the Atlantic telegraph is unaltered. The signals continue to be received, but are too uncertain and faint to be intelligible. Occasionally a short word is given, but never anything approaching a sentence. The experiments made still lead to the belief that the injury is near to the coast, probably within two or three miles. The strong portion of the cable, manufactured expressly for the shore, has been shipped from Plymouth for Valentia, and will be substituted immediately on its arrival for the ordinary wire, which, however well adapted for undisturbed depths, is totally inadequate to resist liability to accident upon a rocky shore.

The London *Times'* Plymouth correspondent telegraphed on the 9th that instructions had unexpectedly arrived from Ireland for suspending the embarkation of the Valentia shore end of the cable on board the steamship Belda, which vessel was to receive it.

The Liverpool *Post* says that electrical experiments have proved beyond a doubt that the defect in the cable arises from leakage at a distance of two hundred and forty miles from land.

The directors were to meet in London on the 11th inst., the day the Niagara sailed, to discuss future action.

The shares fluctuated from £480 to £520 sterling, with numerous transactions.

RUSSIAN INTELLIGENCE.

A St. Petersburg dispatch of August 31 says that a great explosion took place on the morning of that day at some powder mills in the vicinity of the city, by which it was feared that several hundred lives would be lost. A subsequent dispatch says the explosion was at Ukhta, and one hundred workmen were killed.

The Emperor has ordered the foundation of a new town on the confluence of the See and Amoor rivers.

Hundreds of houses had been burned at Moscow by clandestine makers of lucifer matches.

The forests were still in flames on the 1st of September, and the smoke was intolerable in St. Petersburg.

A peat bog was set on fire by the unusual heat of the sun.

The report that the port of the Villa Franca is ceded to Russia for a term of years is confirmed. Russia has no accomplished her object of having a naval station in the Mediterranean. It will consist of one ship of the line and three frigates.

THE CHINESE TREATY.

The Hon. F. Bruce arrived by the Nemesis, and proceeded to Malta. He is the bearer of the treaty with the Chinese Plenipotentiaries, which was concluded on the 26th of June. It was subsequently forwarded to the Emperor, and received his approval. The following are some of its stipulations: Christianity tolerated throughout the Empire, and persons teaching or professing that religion, whether Protestant or Roman Catholic, to be entitled to the protection of the Chinese authorities. Diplomatic agents may reside permanently at Pekin. British agents are protected against excessive transit duties. The tariffs to be revised. Several new ports are opened to trade, and the free navigation of the Yang Tzekiang is declared. British subjects may travel for pleasure or trade to all parts of the Empire, when provided with passports from the British authorities. The Governments to act in concert for the suppression of piracy. Indemnity for the losses sustained by British subjects at Canton to be paid.

MISCELLANEOUS.

Eighteen English railway companies, representing a capital of one hundred and fifty millions sterling, had held a meeting in London for the purpose of agreeing upon a course of procedure to avoid further misunderstanding. Among other resolutions adopted, was one strongly recommending the settlement of all difficulties by arbitration instead of law, to prevent ruinous competition, and asking that power be sought from Parliament to enable the companies to settle all disputes by arbitration.

— A correspondent of the London *Times*, who has a good official experience of the feelings of the Chinese, has strong apprehensions that if the payment of the war indemnity, which is rumored to have been fixed at three millions two hundred thousand pounds for England, and one million two hundred thousand pounds for France, is allowed to be left dependent on the collection of the customs at Canton, not only will its receipts be "problematical," but there will be a constant recurrence of disputes.

— The forcible abduction by the Roman Inquisition of a Jewish child at Bologna, under the pretence of its having been secretly baptized by its Catholic nurse, has created a most painful sensation throughout the Jewish world. The Jews of London had taken the matter up, and are enlisting the sympathy of the English government, and if need be will send a deputation to the Pope.

—The Austrian *Gazette* says that it is reported in Montenegro that the oldest son of Mirko Petrovitch, Prince Daneil's brother is to take the reins of government, to acknowledge the supremacy of the Porte, and to have a seaport. An armistice is concluded until the 31st of December next between the Porte and Montenegro.

— The American ship J. J. Hathorn, bound from Liverpool to Cardenas, and the bark Margaret, came in collision at the mouth of the Mersey on the 9th. The latter vessel sunk, and all on board were drowned except the captain and pilot. The damage to the Hathorn was slight.

General Intelligence.

ROBBING A BLIND MAN.—Alfred Holmes, from Delevan, Illinois, being entirely deprived of the power of vision, came to this city in company with a friend, with the intention of visiting Europe, in order to consult the most eminent physicians with regard to the restoration of his sight. He arrived here three weeks ago, and put up at the Girard House. It was not long before he discovered that his trunk had been robbed of $2,035. The proprietors of the hotel have made every effort to discover the perpetrators of this shameful robbery of the unfortunate man, but thus far without success. The case has been placed in the hands of Officer Devoe, of the detective force. Yesterday a complaint was made at the Mayor's office, and will now come up before Judge Welsh.—*N. Y. Cour. and Enq.*, 23d.

CURIOUS.—A stranger came from Illinois on Friday, and put up at the McCutcheon House, in this city. At night, when he retired, he put a roll of money, amounting to seventeen hundred dollars, under his pillow. In the morning he forgot to take it from thence, and did not think of it until he had been up more than an hour. He then sought it, but it was gone. The room had been put in order and the bed made, and the money was missing. He called upon an attorney, who went with him to the house, and had a conversation in regard to the matter with the landlord and the chambermaids. The two men walked away, and after strolling about town a little while, the stranger returned to the room, and found his money exactly where he left it.—*Burlington (Iowa) Hawkeye.*

NOVEL LAW SUIT.—A novel law suit has been commenced at Hartford. Some years ago, Constable Chas. D. Nott attached a quantity of liquor in David Clark's store, under the Maine law, and that attachment was followed by several trials in the Hartford courts, in which the juries failed to agree. A. and L. Clark, sons of David, and doing business in New York, claimed the liquor and contested the suits. They now sue the constable in the United States Court, for illegally seizing their liquor, and the constitutionality of the Maine law will be tried in the U. S. Court. The Clarks claim damages to the amount of $10,000.

THE SPRINGFIELD HORSE SALE.—An auction sale of horses took place at Hampden Park, Springfield, Mass., on Saturday. Eight or ten horses were sold. "Sontag's" colt was bought by W. H. Ladd, of Ohio, for $1,500. "Nicholas," a Messenger and Morgan stallion, owned by John Maynard, of Hollis, N. H., was sold to Mr. Chamberlain for $1,025. The thorough-bred stallion "Hard Times," was put up at $2,000, but was not sold. The other prices were from $150 to $350.

ACQUITTAL OF A SEDUCER'S MURDERER.—Henry W. Bowyer, a prominent and highly respected citizen of Fincastle, Va., who has been on trial for killing James McDowell, President of the Fincastle Bank, and the seducer of Miss Lizzie Bowyer, daughter of the accused, was acquitted on the 16th inst. There was loud applause in the court room on the announcement of the decision of the magistrates.

TIMBER FOR FRANCE AND CUBA.—Large quantities of timber are now being shipped over the Baltimore and Ohio Railroad to Baltimore, to be shipped from thence to France, to be used in the construction of vessels-of-war. It comes principally from the neighborhood of Cheat River, and it is stated that large prices are paid for it. The Messrs. Hall, of Cumberland County, are also filling a large contract for Cuba.

WEALTHY PICKPOCKET.—A wealthy female pickpocket has been arrested in Philadelphia. The *North American* says this woman is a well-known character, and is believed to have accumulated about $25,000 solely by filching from the pockets of people who buy dusty provisions in the hovels in Market street.

PERILOUS YACHT RACE.—On Saturday last, a yacht race was attempted at the east end of Lake Ontario. Four boats were entered to compete for a forty dollar prize. They were to sail from Three Mile Bay around a buoy at Chaumont and return. The wind blew a gale, and the yachts started, with closed reefed sails, one minute apart. The first yacht had fairly got started when she capsized, but her crew were saved by a row-boat. Presently two other contestants came in collision and one capsized. Only one was left able to go over the water, and she went alone for the money.

UNIFORMITY OF TEXT BOOKS

FOR THE SCHOOLS OF ILLINOIS, WISCONSIN and Iowa. Books published by S. C. GRIGGS & CO., 39 and 41 Lake street.

1st—SANDERS' SERIES OF READERS AND SPELLERS—11 Books.

Distinguished for their strictly progressive character, and practical adaptation to the young. They have been officially adopted by the State Superintendent of Schools in most of the States which have secured a uniform series, by hundreds of Town and County Superintendents in other States, are in use in the principal cities, and in more than ten thousand schools in the United States and Canada, and are selling at the rate of more than a million copies a year.

2d—THOMSON'S SERIES OF ARITHMETICS AND MATHEMATICS—10 Books.

This series has been eminently practical, characterized by distinguished for its simplicity of plan and its Analysis and Synthetic modes. Intelligent and decisive recommendations have been given by hundreds of teachers in the Union, among whom are Superintendents of several States as which have adopted a uniform series, and many others. The sale is over 100,000 a year, and rapidly increasing.

3d—WILLSON'S SERIES OF HISTORIES—5 Books.

These are the only complete graded system of Histories for Schools ever published. They have been received with universal commendation by Teachers, have been recommended by upwards of fifty Presidents and Professors of Colleges in different parts of the United States; by over three hundred Principals of Academies, &c., and by a majority of the School Commissioners of the State of New York.

4th—FASQUELLE'S FRENCH SERIES—10 Books

These works combine the two rival systems, the oral (adopted by Ollendorff, Robertson and Manesca) and Old Classical or Grammatical, and are constructed on the plan of "Woodbury's Method with the German." The Reading Books are selected from the best French authors, carefully edited, with copious notes and references, and neatly executed. The "Course" has had a success unrivalled in America, having passed through some fifty editions, and been re-published in England. Teachers of the French language approve these works with great cordiality and unanimity. They are already the leading French Text-Books in the New England States, New York, New Jersey, and the Northwestern States, and are rapidly gaining ground everywhere.

5th—WOODBURY'S GERMAN SERIES—9 Books.

Professor Schmidt, of Columbia College, says:—"The 'Method' is truly admirable, and with willing learners can not fail to accomplish the most satisfactory results." Professor Torricelli, of Dartmouth College, says: "Having for the past two years used it in the College and the female Seminary in this place, I find that nothing better can be desired. No German teacher will hesitate to adopt it in preference to all others." Rev. Dr. Kast, editor of Der Christliche Apologete, Hon. R. Allen, Commissioner of Rhode Island, President Allen, Girard College, and other well known teachers, have also commended the "Method" or other portions of the Series.

6th—GRAY'S BOTANIES—6 Books.
7th—HITCHCOCK'S GEOLOGY—Price $1 25.
8th—WELLS' NEW CHEMISTRY—Price $1 00.
9th—WELLS' NATURAL PHILOSOPHY—Price $1 00.
10th—WELLS' SCIENCE OF COMMON THINGS—Price $1 00.

COURTSHIP AND MATRIMONY,

With other Sketches from

Scenes and Experiences in Social Life,

BY ROBERT MORRIS, ESQ.,

(Editor of the Philadelphia Pennsylvania Inquirer.)

Embellished with a magnificent Steel Portrait of the Author, taken from life.

Complete in one large duodecimo volume of 508 pages, neatly bound in cloth, for $1.25, or in two volumes, paper cover, for $1.

Read the following letter from John Grigg, Esq., the retired Bookseller and Publisher, about the book:

Philadelphia, August 12th, 1858.

"T. B. Peterson & Brothers—Gentlemen: I notice you are about publishing 'Courtship and Matrimony, with other Sketches from Scenes and Experiences in Social Life,' by Robert Morris, Esq.

"From the commencement of my book-selling career, in 1816, to the present day, I have taken a deep interest in the distribution of such books as I thought would promote the welfare and happiness of mankind, and I take this opportunity to say, that no book published in this country (with the exception of the Bible,) deserves a more general circulation into every family in our country than the book you now have in press.

"The most important part of education, in my opinion, is the cultivation of the heart, and a perusal of this work of our friend Morris, will produce much good fruit.

"There is no subject in any person in all read, but what the man, woman or child will be the better after reading and reflecting thereon. With very great respect, yours truly, JOHN GRIGG."

Making in all 48 volumes of portable size in 16mo form. The paper is of fine quality; the stereotyped plates are not old ones repaired, the type having been cast expressly for this work. The Novels are illustrated with capital steel plates, newly engraved in the best manner, after drawings and paintings by the most eminent artists, among whom are Birket, Foster, Darley, Billings, Landseer, Harvey and Faed. This edition contains all the latest notes and corrections of the author, a Glossary and index, and some curious additions, especially in "Guy Mannering" and the "Bride of Lammermoor," being the fullest edition of the Novels ever published. The notes are at the foot of the page—a great convenience to the reader, but that is generally overlooked by the publishers of other editions of Scott's Novels.

NOTICE—THE PAST EIGHTEEN MONTHS' experience has given the citizens of Chicago ample proof that the new process of cleansing gentlemen's clothes that are practised by those inexperienced in the business, the face of the matter is that unless your coats, vests and pants are dyed, cleaned and neatly repaired by men skilled in their vocation, they had far better never be touched at all—but where they can be done up by experienced workmen, it is certainly a great saving to the community at large, at the same time conducing much to the bodily comfort. Now, gentlemen, all of you that know the truth of these remarks will be fully convinced that the only true and skilful method of having your clothes cleaned, dyed, repaired and made to look like new, is by COOK & McLAIN'S Chemical process, which thoroughly removes every spot of grease, paint, wax and tar, together with all blemishes and impurities to which wearing apparel are subject. The goods are not injured in the least, and that finished lustre is put on as when first new.

Gentlemen, call at COOK & McLAIN'S and examine specimens of their coat dressing. If they fail to please you no charge will be made. COOK & McLAIN, 90 Dearborn street, south of the Post Office.

COMMERCIAL.

Commercial and Money Matters.

SATURDAY EVENING, Sept. 25, 1858.

MONEY, &c —Eastern Exchange is in fair supply at 1 per cent. prem. The various bankers are discounting moderately to their customers on short dates, at the usual rates. Currency is rather easier.

COMMERCIAL.—The Breadstuffs markets have been a shade firmer. There was an active demand for Red Winter Wheat, which advanced ½@1c per bushel. No. 1 opened at $1.07 and closed at $1.08; No. 2, at 97½—closing at 98c. Spring Wheat was steady, and in moderate demand at 74c—one full cargo, warranted sound, bringing 76½c f. o. b. The sales of Wheat foot up: 56,000 bu Winter, and 40,000 bu Spring.

Corn was in active request, and advanced fully ½c per bushel. About 48,000 bushels changed hands at 59@60c afloat for Canal and River; 57@58c for No. in store; 54½@55c for No. 2.

The Flour market was quiet. Sales of White Winter were made at $5 38@5 50; Red Winter, $4 75; Spring Extra, $4 25@4.62½.

The Provision market is quiet. There is no Mess Pork on the market. Lard quiet at 10@10½c. Tallow 9½@10c. Hides steady.

Freights advanced slightly to-day—the rates being 7c for Wheat to Oswego; 4c for Wheat to Buffalo, and 3c for Corn; 5c for Wheat to Thorold; 6½c for Corn to Kingston, or 10c to Montreal.

The Cincinnati *Gazette* of yesterday gives the following synopsis of the markets:

In ou general markets to day a firm tone was manifested for Flour and Wheat,, with, if any thing, an upward tendency. Good brands of superfine Flour brought $5@5.10, and prime white Wheat $1.18. The figures are now fully up to the highest point of the season. Notwithstanding the advance that has been established in New York lately, and the low rates of freight, (95c per brl. for Flour to New York, by "all rail") prices are still above a shipping point, and buyers for export, who are not numerous, are operating in anticipation of a material advance in seaboard quotations within the next sixty days. Whisky sold early in the day at 19½c, but closed at 20c. Provisions quiet and unchanged. Buyers and sellers are mostly apart in their views;

With regard to the Hog trade, the St. Louis *Intelligencer* of yesterday says:

The Hog trade has within the last few days been unfavorably affected by the dullness in the provision market. We understand that orders for the purchase of Hogs at 4c gross have been countermanded.

The first shipment of Flour from Kansas Territory is thus noted by the St. Joseph's *Journal:*

The steamer Minnehaha on Friday evening brought up from Palermo, K. T., one hundred sacks of extra flour. It was manufactured at the steam flouring mill of Messrs. Mahon & Kimber, of Palermo, from wheat raised in the Territory. The flour was consigned to their agent, Mr. Culver Hyatt, of this city, who is to receive from the same mills hereafter two hundred sacks per week. This was the first shipment of flour from Kansas, and marks a new era in the Territory.

The Crops.

ROCKFORD, Sept. 23, 1858.

Editors Press and Tribune:

During the ripening of the wheat, barley and oats of this present crop, I took the liberty of writing several letters upon the prospects of the crops in the valley of Rock River, all of which you seen fit to publish. I will now say a few words upon the result of these surmises.

We have had six weeks of very fine weather for the threshing and delivering of grain, and being a purchaser of grain I have made particular inquiry of farmers in different settlements in Winnebago, Ogle and Stephenson counties, and find the average to be below six bushels to the acre, including wheat, barley and oats, as compared with the number of acres sown to those grains. I also find the average weight per bushel to be about 52 lbs of wheat, 40 lbs of barley, and 18 lbs of oats. The variety known as Canada Fife wheat has not suffered from the rust, but has suffered more or less from blight. The Australian wheat has suffered the least of any of the numerous varieties sown in this section of the country. Corn bids fair to be of excellent quality, but the bad stand, caused by bad seed, renders it impossible that more than three-fourths of an average crop will be gathered. The grass crop was very heavy and secured in good condition. Yours truly, W. G. REA.

Weekly Review of the Chicago Lumber Market.

SATURDAY EVENING, Sept. 25.

The receipts of lumber for the week do not differ much from those of the previous one, while there is an increase for the week of shipments by canal. Within the last eight or ten days there have been several of the St. Louis lumber dealers in the market here, buying clear stuff, flooring boards, and shingles; several boat loads have already gone forward on their account,—and this, with an improved demand from intermediate points, has increased the canal shipments.

Sales to the country trade are steady, but comparatively small, although the yards are bare,—owing to the scarcity of money. The dealers out of the city seem to be ordering only for present demand, making no large purchases.

The yard business is fully as good as it has been for the last two or three weeks, yet there is no quotable change in prices: the rule with buyers seeming to be, to get as much as they can for their money,—and with the seller not to let a cash purchaser slip through his fingers on any account. We repeat recent quotations:

Second Clear dry	26.00@28.00

The demand for laths has increased within the past week or two, and they are held with more firmness. There are plenty of sawed shingles in the market, for which there is fair sale; but good shaved ones are scarce and in request, costing at the yards $2.50@2.75 per M., or by the cargo, $2@2.25.

The arrivals of lumber craft in port for the week amount to 86. Cargoes in rather better demand, good manufactured lumber commanding on an average $7.50. The majority of loads coming into the river are yarded on manufacturers' account. The following are a few of the sales in the course of the week:

Schr Storm Spirit, Grand Traverse, long stuff, strips and boa ds, $7 cash.

Schr Telegraph, Grand Traverse nearly all strips, $7,10 cash.

Schr Helen Kent, White Lake, mostly dry strips, private terms.

Schr [illegible], Manistique River, mostly strips, $7.50 cash.

Schr Hamlet, Oconto, fence and flooring boards, $7, half cash half thirty days.

Schr G. F. Foster, Muskegon, strips, $7.50 cash.

Schr E. M. Shover Muskegon, strips, $7.50 cash.

Schr [illegible], Grand River, $4 culls, $7 common, $15 second clear, and $20 for first clear—cash.

The table below shows the comparative receipts by lake, and shipments by canal, for the week. The shipments by railway continue large, the country yards, we are told, being quite bare:

Port Items.

COLLINGWOOD LINE.—We notice the arrival of the prop Hunter from Milwaukee, where she has been laying some time repairing. The Ontonagon was to have left Collingwood on Saturday—so the line is again complete The steamer Lady Elgin, which has temporarily been running to Collinwood in place of the disabled propellers, is to be restored to her place in the Lake Superior trade, and leaves, we think, on the 1st prox.

WHIMS OF TRADE—A quantity of seasoned lumber left this port a few days since for Green Bay. Green lumber cannot be manufactured at the latter place for less than $7 ℘ M, while here the seasoned is worth only $5; hence this new whim of trade.

FAST TIME.—The schooner M. Courtright, Capt. Christian, on her last trip from this city to Buffalo, made the run from Detroit to Buffalo in twenty hours, drawing eleven feet of water.

Miscellaneous.

FROM LIVERPOOL.—The schooner J. F. Warner, one of the Cleveland Ocean Fleet, arrived at Quebec yesterday from Greenock, Scotland, loaded with pig iron for this port. The dispatch to the Warner's owners stated that she would be in Montreal to-night.—[Cleveland Plaindealer.

☞ The fine vessel E. S. Adams, arrived at Montreal on Tuesday morning last, after a voyage of about forty days, from Liverpool, with a valuable cargo of merchandise. She encountered head winds all the way, and some very severe storms. She will be in Canal next Tuesday.—[St. Catharine Constitutional.

PUMPING ENGINE AND BOILER FOR SALE

—The Board of Water Commissioners of the city of Chicago offer for sale the Pumping Engine, Boiler, &c., lately used for supplying Chicago with water. The attention of Mining Companies, of parties constructing Water Works, and others needing a pumping engine, is invited to this engine.

The engine is capable of supplying fifty thousand people with water, has been but little used, is complete in all its parts as a pumping engine, and both engine and boiler are in good order. The engine is non-condensing and horizontal steam cylinder, 18 inches in diameter and six feet stroke. Pumps are of the same dimensions and double acting. The boilers—two in number—are 30 feet long and 42 inches in diameter; are ordinary cylinder boilers, with two flues in each, and are both in excellent order and complete in all necessary appurtenances. The above will be sold low. The engine can be seen at the Engine House of the Chicago Water Works on application to the Engineer, and all information obtained there or at the Water Works Office. By order of the Board.

LIGHT!! MORE LIGHT!!

EVERY FAMILY THEIR OWN GAS MAKER,

NO CHEMICAL HUMBUG.

THE UNDERSIGNED HAVE MADE EXtensive arrangements for supplying any store, public house or private dwelling in the city or suburbs with

J. W. Smith's New Patent Gas Generator.

By means of this exceedingly simple, cheap and convenient arrangement, any family can have, at a cost not to exceed one-fourth the cost of the city gas, a gas far more brilliant and white, and not at all offensive. This is none of the chemical humbugs with which the country is flooded, but genuine Gas, manufactured by means of a simple arrangement (lately patented) made to attach to any gas pipe, to be used with ordinary gas burners.

THINGS YOU WILL AVOID BY USING THIS GAS.

1st—Three-fourths of all expense.
2d—All offensive odor.
3d—Uncertain and poor light.
4th—The annoyance of defective metres, monthly bills, advance deposits, &c.

The following are among the many certificates we have from those using this Gas:

Washington City, D. C., July 1st, 1858.

This may certify that we have been using John W. Smith's Portable Gas Generator, to light our store, which has 8 burners, using from 5 to 6 feet per hour to each burner, making the gas every night as we want it. We find this new invention to be a valuable one. For economy, safety and brilliancy it by far exceeds every other light now extant. Our gas bill from the Gas Company in this city averaged $26 per month, when this (Smith's) Gas has not cost over $4 or $5 amonth, and producing a much stronger and purer light. Our experience with it since the 1st of February last, warrants us in recommending it to all that may wish a cheap and safe light.

E. TUCKER & BRO., Pennsylvania avenue.

TO ALL WHOM IT MAY CONCERN.—The undersigned are now using in their store, 74 State street, one of J. W. Smith's Portable Gas Generators, and from experiments carefully made by us we are well satisfied that the cost of gas made by this apparatus will not exceed one-fourth the expense of the city gas for an equal number of burners, the capacity of the burners being equal. The light is also whiter and more brilliant, and without offensive odor. The apparatus is exceedingly simple and cheap, and the process of making the gas within the comprehension of the most ordinary mind, all of which facts we shall be happy to demonstrate to any person who may wish, by their calling at our store, 74 State street, at any time between eight o'clock A. M. and nine o'clock P. M. BEECHER & POWELL.

Pure Milk! Pure Milk!

THE UNDERSIGNED IS RECEIVING daily, and offering for sale, PURE MILK from dairies owned by the following named men in Elgin and vicinity: J. Kimball, Dea. Luther Herrick, [illegible] dick, P. H. Smith, N. Ballard, General O. Wucox, C. Kerr, Cyrus H. Larkin, J. J. Cook, A. C. Bucklin, D. C. Adams, M. Sherman, H. Sherman, J. R. McLean, J. Salisbury, all of which are well known by the old citizens of northern Chicago, as being amongst the best and most reliable dairymen in Northern Illinois. Their cows are kept upon the grasses and grain and roots raised upon their farms and kept at pasture in summer, and are perfectly healthy. We challenge investigation, and any one is at liberty to examine our Milk at any time. And we pledge ourselves to pay TEN Dollars a quart for all the swill or impure milk we have or may sell. I. H. WANZER.

Chicago, June 17th, 1858.

We are well acquainted with the above named dairies, and know that their dairies are kept as well and better than any dairies in Illinois that we are acquainted with; and believe that the owners would not, under any circumstances, be guilty of selling impure Milk. And we are well satisfied that Messrs. Wanzer & Co., who sell Milk from these dairies, sell nothing but such Milk as they receive from said dairies.

E. J. COLBY,
A. J. JOSLYN,
B. W. RAYMOND.

MR. I. H. WANZER: Yes, I am more than willing to add my testimony to the evidence of Elder Joslyn, Esq. Colby, ex-Mayor Raymond, and others.

"Do I know those men who furnish the milk you sell?" Sir, I have known them from the start. Eighteen years ago we were "squatters" side by side on what was then the "public domain," but what is now their farms, covered with cultivated grasses. I know that their cows feed on clover," and retain that cleanly appendage [illegible] cousins kept in distilleries so commonly forget; that is, the dairy fixtures and appurtenances exhibit proof, that is the country cleanliness is considered a cardinal virtue, and the milk reaches you via the G. & C. U. "milky way" cool, sweet and pure.

"Whatsam I willing to say to this community of yours?" Why, that you are Kane county boys, reared in the Orthodox district—Nature's noblemen—and that I believe you are incapable of adulterating milk as of [illegible] any other way. EDW'D W. BREWSTER.

N. B. I hold myself responsible for no milk except my own. That can be had of wagons No. 1, 2, 3, 4, 5, and 6, marked "Elgin Dairy, I. H. Wanzer."
